

ADDITIONAL LOCALS

Johany Holt has been visiting his mother in Andrews. Mr. H. G. Elkins spent Saturday in Atlanta on business. Mr. and Mrs. O. W. Hendricks had their guests on a recent week-end at their camp on Lake Blue Ridge; their guests were: Mrs. Forbes Buchanan of Durham, Miss Ruby Hendrix and Mr. Arthur Hendrix of Ball Ground and Mr. J. B. Davis of Washington, D. C.

Miss Wilma Coleman and Miss Helma Elkins entertained with a party last Thursday night. Those present were: Jean Martin, Vaul Chastain, Juanita Oyer, Eveyln Martin, Kate Crisp, Minnie Stalcup, Eva Hampton, Gwendolyn Stalcup, Dennis Hampton, "Dub" Martin, Zeb Chastain, Earle Martin, Clinton Stalcup, A. J. Martin, Jud Chastain, Willard Moore, Billy and Frank Stalcup, Lloyd Keener, Boyd Cornwell, Owen and Fred McDonald, John Robert Martin, Charles Coleman, Mrs. Lettie Stalcup, Pat Lunsford, and Mr. and Mrs. Garnette Owenby. After games were played refreshments were served.

Boy Scouts Meet

By Joseph Simon, Scribe The Boy Scouts of America, Troop 1 held their weekly meeting, Monday night. The scouts gave their good deed and proceeds with their meeting. Fifteen boys were picked out to work at 9:00 o'clock this morning. The scouts are going to buy uniforms with the money they work out. The meeting was closed with an announcement for a meeting next Tuesday night.

Arthur Barber, Pastor Church School 9:45, Mr. Dale Lee, Superintendent. Worship services at 11:00 A. M. and 7 P. M. with messages by the pastor. Young People's Societies meet at 8 P. M. The church extends a cordial welcome to all visitors and new-comers. Come, worship with us.

EPISCOPAL

Church of the Messiah George Lemuel Granger, Rector SUNDAY SERVICES 10 A. M. Holy Communion. 11 A. M. Church School. 11 A. M. Morning Prayer and Communion. 7 P. M. Evensong and sermon. All most cordially invited to these services.

Good School Lunches Based On Diet Needs

The good school lunch is planned in relation to the meals at home, said Miss Mary E. Thomas, extension nutritionist at State College. If children are to grow, be active in mind and strong in body, and have resistance to disease, their noonday meal should combine with their home meals to give a well-balanced diet, she added. A child should have daily: a quart of milk; two servings of vegetables in addition to potatoes; two servings of fruit, one raw, if raw vegetables or canned—tomatoes are not served; at least one serving of egg, meat, fish, or cheese; cereal foods such as whole grain breads and breakfast cereals; butter, and sweets in moderate amounts. The food should be so prepared that it is easy to digest. Variety in texture and color makes the lunch more appetizing. Have one of the foods in the lunch soft and moist, another crisp or crunchy to chew. Sandwiches are the mainstay of any lunch as they are easy to carry and are generally liked. Numerous varieties of sandwiches can be made with fillings of fruits, vegetables, meats, and cheese. Vegetables, especially raw ones, are appetizing and can be carried easily either wrapped in wax paper or made into salads. The fruit in the lunch box may be fresh, dried, canned, or in the form of juice. If milk cannot be taken in the lunch box and kept cold, it may be prepared in the form of custards, puddings, and cottage cheese.

Storm Leaves Carolina Coast Debris Strewn

Edenton, Sept. 24.—The list of missing from the West Indian hurricane which raked the northeast coast of North Carolina was reduced to three with the finding of two barges occupied by WPA workers aground in the inland waterway four miles below Coinjock.

Earlier fears had been expressed that more than 50 men aboard the barges had been drowned when the fierce winds tore the craft from their moorings early this morning. The three missing were listed as Frank Lambright, Joseph Lee, and Frank Hall, all negroes.

A negro known only as "Popeye" who had been reported probably drowned was found uninjured. Occupants of the two barges said they suffered no hardships, although some of them said they were badly frightened by the storm. Most of them expressed doubt that the three missing men had drowned, saying they probably were making their way back to the WPA camp near Coinjock, on Albemarle sound.

A survey of the Elizabeth City-Manteo area revealed that those sections, isolated from all wire communication for approximately 18 hours, were not so severely affected by the storm as was feared for a time.

Elizabeth City Hit Hard

Elizabeth City was strewn with debris and struggling to resume normal operations after hours without power. Store fronts in the town of 10,000 population were battered, trees fell across a few houses, but altogether damage appeared to have been held to a minimum.

The headquarters of the Elizabeth City Yacht club was destroyed, at a small loss.

Manteo, which received the full force of a gale reported to have attained a velocity of 9 miles an hour at times, was found safe and comparatively speaking, little damaged. It was still isolated, the ocean having cut through the sandy banks near Nags Head, washing out the highway which leads to Currituck and Norfolk, Va. Manteo's streets were still flooded slightly.

In contrast, Edenton and Elizabeth City had record low water marks. Edenton, where there is normally no daily tide, found the water line down six feet, blown out by the counter-clockwise movement of the hurricane.

Phosphate, Limestone Make Better Pastures

Triple superphosphate such as is manufactured by the TVA will give more satisfactory results on pastures and meadows when mixed with ground dolomitic limestone, according to demonstrations conducted on a number of western Carolina farms.

J. A. Glazener, Transylvania county farm agent of the State College Extension Service, has been particularly impressed by the good results obtained by applying the ground limestone and triple superphosphate to pasture lands and clover fields in that county.

It is found that when these materials are applied, the pasturage is more palatable and nutritive, he said and the clover makes a better, richer growth for grazing or for plowing under to improve the soil.

The Soil Conservation Service has found also that superphosphate containing ground limestone would serve the same purpose as basic slag and in advertising for bids has secured prices on basic slag or 16 percent superphosphate, each ton to contain 400 pounds of ground dolomitic limestone.

The Soil Conservation Service assumes that 1,140 pounds of such superphosphate are equivalent to one ton of basic slag. This means that when basic slag is quoted at approximately \$8 a ton, 16 percent superphosphate containing 400 pounds of ground dolomitic limestone per ton is equivalent in price when it sells for approximately \$14 a ton.

County agents in western North Carolina are finding the phosphate-limestone mixture admirably suited to conditions in that section and are urging farmers to use it on pasture and clover fields.

Walter C. Wentzel, dentist of Shamokin, Pa., has not missed a weekly meeting of the Rotary Club in 18 years. He has gone to more than 900 meetings without a break.

Most TVA Offices Moved To Building

While several of the TVA offices in Murphy have moved to their new quarters in the knitting mill, others were planning to go there as soon as last repairs are finished this week.

The office of F. L. Weiss, field engineer, will be moved to the dam site within the next week or so, and the removal of one other undesignated office is expected there some time this fall.

Edgard Hoover Raps Criticisms Of G-Men

New York, Sept. 24.—Replying to attacks on the Federal Bureau of Investigation, J. Edgar Hoover, its director, asserted in an address Saturday that "schemers who endeavor to belittle the efforts of honest men" are "a disgrace to the profession of law enforcement."

In his speech to the third national convention of Holy Name Societies, he did not refer by name to those who had criticized his bureau. Some secret service agents recently made an investigation of the bureau. They were reprimanded by Secretary Morgenthau.

Tillitt Named Head Of Local Political Party

The appointment of D. H. Tillitt, Andrews attorney, as Chairman of the Roosevelt Electors Committee has been announced by A. D. Folger, State Finance Director and National Committee man for this State from his headquarters at Daleigh.

The Roosevelt Electors Committees, of which there will be one or more in each county, is the official agency designated by the Democratic National Committee to raise funds for the re-election of President Franklin D. Roosevelt.

In selecting Mr. Tillitt as one of the Committee Chairmen for this county, Mr. Folger pays a fine tribute to the qualities of leadership, ability, and Party loyalty that are possessed by Mr. Tillitt.

As Chairman of the Roosevelt Electors Committee he will be in charge of the work of raising funds in this section for the campaign. Every person contributing will be enrolled as a member of the Roosevelt Electors Committee and presented with an Elector's Certificate. Details of the drive for funds will be explained by Mr. Tillitt, who asks the help and cooperation of the people of his section.

TVA Expands Its Service Despite Pool

Knoxville, Tenn., Sept. 24.—The Tennessee Valley Authority is expanding its power service program irrespective of plans for a power-pool with private power companies of the Southern states, it was revealed Sunday in the TVA's approval of applications for electric power by co-operative groups in Wilson and Rutherford counties, Tenn.

Approval of the applications followed surveys which showed a sufficient number of persons were expected to subscribe to the service to make the extension of transmission lines to the counties practicable.

On the previous day, the TVA revealed, approval had been given applications for TVA power in four Mississippi counties. Construction of a power line to Clinton, following recent approval of applications in that town, have been started.

The power line extensions into Wilson and Rutherford counties, Tenn., it was indicated, represented TVA's entry into a highly competitive field served to date largely by private utility companies.

The TVA's pushing of its lines into these new fields was seen by several interested persons Sunday as an effort to influence private power companies to join in the proposed pooling operations which are to be discussed at a conference called by President Roosevelt at Washington, D. C., September 30.

The TVA expects to apply to the Rural Electrification Administration for funds to construct the power line extensions in the Mississippi field.

C. J. Wooten, Of Ranger Is Buried Saturday

Funeral services for Mr. C. J. Wooten, 46-year-old World War veteran, who died suddenly at his home near Ranger Saturday night, were held Monday afternoon at one o'clock. W. D. Townson was in charge of funeral arrangements.

Mr. Wooten, a member of the American Legion post at Murphy, had been living in Cherokee county about 5 years.

He is survived by his wife; his mother; two brothers, Luther and Ed Wooten, both of Asheville, and two sisters, Mrs. Nora Hampton, Tate Ga., and Miss Maud Hawkins, Gastonia, N. C.

TVA Personnel Man To Be Transferred

P. M. Darby, former TVA personnel director at Norris, Tenn., will succeed W. M. Rogers in this district in that capacity next week.

Mr. Rogers, who has been located here for the past two months and has interviewed about 500 applicants from Cherokee and adjoining for jobs on the Hiwassee dam, will be transferred to some TVA territory in Tennessee, he said.

Mr. Darby will occupy the present personnel offices in the knitting mill.

Fall Officially Comes On Wednesday Morning

Yesterday, Wednesday, was the first day of fall. To be more explicit the old fire place almanac placed the hour at exactly 12:36 a. m.

Although it was officially the first day of the autumn season, no departure was noticed from the usual run of late September weather.

Many have expected it to rain all week just because Fair is going on, but the officials took care of that. They, too, used the almanac and decided to hold it one week before the annual fall equinoctial storm.

Warne, Sept. 24.—The semi-annual meeting of the Clay county singing convention is scheduled to be held at Hayesville next Sunday. Several classes in different sections of the county are preparing for the contests after the general singing in the forenoon. A large number of visiting singers from other sections are expected to be present and render some special selections.

NOTICE: SALE OF VALUABLE REAL ESTATE

Notice is hereby given that Town of Andrews will offer for sale to the highest bidder at public outcry on the 26th day of October, 1936, at ten o'clock, A. M. in front of the Carnegie Library on Main Street in the Town of Andrews the following described real estate:

Being what is known as the Old Power Plant Property containing about 3/4 acres together with all buildings located on the same.

And being the same property bought by Town of Andrews from W. B. Fisher and wife, by deed dated September, 22nd, 1917 and recorded in book No. 69 page 264—Register of Deeds Office of Cherokee County, N. C.

Said property being offered for sale for cash and then for sale for one third cash and remainder secured by trust due in 1 and 2 years—deferred payments to bear interest at 6% per annum.

The right is reserved to accept or reject any and/or all bids.

Done by order and authority of the Board of Aldermen of Town of Andrews.

P. M. REAGAN, Mayor of Town of Andrews. C. F. WOODARD, Town Clerk of Town of Andrews.

WPA OFFICIAL . . .

(Continued from front page) up in federal funds by the WPA as against \$24,687 by local government.

"Gradually all of our workers, and especially the skilled laborers, are finding permanent employment. We expect to turn more men off the WPA rolls after October 1", he said.

Mr. Askew said that in travelling over the state he found many people were confusing the WPA with the PWA. "The primary objective of the Public Works Administration", he declared, "is to make grants and loans to municipalities for the purposes of large construction such as school houses, community buildings and so forth. In this instance the municipality must put up a certain percentage of the total cost of the building."

"The WPA, on the other hand, is purely a work program interested in taking care of relief labor."

Listed among the projects in Cherokee county are:

Beautify streets of Andrews, federal \$8666, local \$1278.

Repairs on streets of Murphy, federal \$12,637, local \$2860.

Farm-to-market roads in Cherokee county, federal \$84,330, local \$12,199.

County-wide sanitation program, federal \$6895, local \$8250.
