Social Animosity In Flat Rock
The social status in flat rock has recently been split asunder ansoforth. It all started when mr. holsum moore failed to invite mrs. tom head to her bridge party, and mr tom head retaliated by leaving mrs. moore off of her list at the luncheon dinner last friday at the all-nite caff.

mrs. square had some prominent vissitors from the state capitol, including a game warden's wife and 2 members of the leggislatre. she left off both mrs. head and mrs. moore at the reception, and now 3 factions have got started in full blast and nobody knows which side to pick out to affiliate with.

some hard words have already been spoke on all three sides and some poking out of the tongue and hising the nose straight up into the air on seeing each other took place near the post offis yesterday p. m. when all 3 of the factions come putty nigh of walking head long into

each other's pressence ansoforth, but after insulting one another, they turned aside and went their respectabe ways.

the husbands of the afflicted socialities are also being fetched into the fray and much venom might yet come out of it. hon. holsum moore refused to give art square a chaw of tobacco at the city hall this morning, this had never happened before, and the latter has always depended on the former for his chaw every morning, but he will have to look elsewhere, so they say.

mrs. moore is on the same dupex telly-foam lines with mrs. square, and now she won't ancer no calls there as she is a-feared that that hateful mrs. square mought be talking to somebody else and she would have to listen at her hard, statts voice. of course she listens in occasionally to ketch on if she is being talked about.

rev. will waite hopes this social outbreak will not reach into his church and injure his quire. all of them try to sing in same, but their voices are so crackled that it keeps miss jennie veeve smith on her toes to keep the church organ in tune with them. this is the worst disturbance flat rock has had since the terrible

Flat Rock Is Booming

flat rock shows beyond a shadow of a doubt that prosperity has returned back from around the corner. a big bowling allie has started up in our midst and a skeeting rink was operated under a tent for 2 weeks not long ago.

hoss shoe pitching has died down some onner count of somebody stole their pitching shoes and sold them for junk. baseball is in full swing every saturday p. m., but ever-day amusements is what we need. some of our loafers have enjoyed watching mrs. art square make her husband work in the garding here of late, but this can't last.

flat rock needs a swimming pool, a tennis coart, a golf link, and several other interesting attractions, and if the government quits furnishing such things free of charge ansoforth, it is time for our people to spend some of their own monney for such need-cessities. the world has her eyes on flat rock and she will see her grow from now on.

ANOTHER SMART USED CAR BUYER

“When I set out to buy a used car a couple of months ago, I took my time about it,” says Andrew Trotto, pressman. “But shopping around only convinced me of what I had already heard so often—that you can't beat a Dodge dealer for bargains in dependable used cars. Actually, cars of the same make and model as the one I bought were priced \$30 to \$40 higher at several places I looked. And yet, despite the lower price on the Dodge dealer's car, it was in much better condition.

Then, too, the Dodge dealer's car was one of his Blue Seal specials, guaranteed trustworthy. Of course, I bought from the Dodge dealer, and my car has been performing wonderfully ever since.”

When a bank accepts deposits

—it enters into human relationships that make it unique in business life.

IT assumes toward its depositors an obligation to safeguard the funds placed in its keeping, with all humanly possible diligence. It assumes toward its community the obligation to employ those funds, through good business loans and advances for sound public financial requirements, to serve the vital needs and broadest welfare of the community. It assumes toward its stockholders the obligation to protect their capital and earn a fair return.

Sound, honest management offers the only way to meet these three obligations. There are no substitutes for them in banking laws or financial practices.
