

NOBODY'S BUSINESS

BY GEE McGEE

Mr. Lark Asks A Small Favor
 dear mr. editor:—
 please use yore influence with the department of agger-culture to get my son, scudd lark, back into the c. c. c. camp in the lower part of the state. he was excused for something he done and has never benn called back.

he never meant to take the super's ford, he only thought he would try it out for a few hours, and when he run into that tellygram post, it was not his fault, as the tellyfoam people put it in the ground too close to the highway, they ought to be sued for malpractice ansforth.

he was not out of the camp but 9 hours, and had the ford not of run into the aforesaid post, he would not of benn out of the camp without leaf of absence but only 14 hours. that ought not to be bad enough to have a fine feller turned off about; scudd is a nice boy except when he has benn forced to look upon the cup when it is red ansforth.

as to the monney which was missing by his bunk pardner in the camp; he knows nothing about it. that guy owed scudd 3\$ for cash loan 4 weeks befoar but he did not collect it befoar using the car of the super, and besides that, his pardner didn't have no monney to be stole. he stayed broke mought night all the time.

i have rote our congressman and my wife has rote her sennator and i have asked the postmaster here to rite hon. jim farley and the county farm demmon-strator to rite the seek-er-terry of agger-culture, all in behaff of our son, scudd so if you will touch up his character favorable throu yore collums, i believe he will be replaced back again.

you have a fine little newspaper and if you get our darling boy back in the c. c. c. camp where he can be hell down and forced to behave hisself, yore corry spondent, mr. mike Lark, rfd, will sell yore papers on the streets in the future free of charge and also get some subscriptions for you. yore paper is a darling in our househole. rite or foam.

yores trulie,
 mike Lark, rfd,
 corry spondent.

Serious News From Flat Rock

a new disease has been discovered in flat rock amongt the patience of dr. hubbert green, our local fissionian and drug store owner. commonly recker-nized as our only tycoon, but his wealth has subsided to some extent enduring the past few monthe onner count of the gold mine he bought in akla. turned out worsar than his oil well in texass.

this new disease in confined to hon. holsum moore and alsck skinner, and it causes them to want to lie down or set down all of the time, they have lost all of their ennergies and can't turn a hand around the house, such as fetching in watter, and getting wood reddy for the stove ansforth. they seem to be 100 per cent normal if not called upon to do anny work.

dr. green seems non-plussed with this mallady. he has not subscribed anny certain kind of medison so far, but he smiled when mrs. moore said a big dost of a broom handle or a baseball bat mought help her situation. as long as these two patience are left to theirselves and nobody ain't nagging at them, it seems that their blood pressure returns to normal, but only while setting or lying.

holsum moore's uncle judd let him have a good tetch from his bottle of lemmon-rind bitters a few days ago and he became verry active and wanted to fight somebody in less than 30 minnets, but he failed to run acrost anny-one that would insult him. he slobbered some at the mouth at first, but otherwise—the bitters did not harm. when he woke up, he appealed to his wife to fetch his supper to his bedside, as he could not walk verry much.

as she is afearad that it mought be instead of a put-on, mrs. moore and mrs. skinner is keeping up the life insurance on their husbands and pays the c10 to the collector every week. it would be a terrible calamity for these 2 gentermens to die without anny income therefrom for the to be berried with, but the 200\$ insurance will leave a few dollars for each of them to start off anew with.

dr. green do not seem to be worried verry much about these 2 patience. he calls on them while passing by, but wont make a direct call to the houses on them, as they alreddy owe

Rites Held For R. L. Sandidge, Graham Editor

BRYSON CITY, June 13—Funeral services for R. L. Sandidge, 69, who died at 1 o'clock Saturday morning in the C. J. Harris Community hospital at Sylva following an operation for ruptured appendix June 6, were held in the Presbyterian church here this afternoon at 2 o'clock with full Masonic rites. The Rev. T. F. Deitz, officiated. Burial was in the Bryson City cemetery.

Mr. Sandidge, who was well known throughtout this section was one of Bryson City's outstanding business men during the years 1905 to 1920. He came here from Missouri in 1905 and established the Bryson Telephone exchange which he continued to operate in connection with the publishing of The Bryson City Times for about 15 years. He was also in the real estate business during this time. About 1920 he left Bryson City and went some time in California and Kentucky, returning to Bryson City a few years ago. While here this last

him doctor bills that are old enough to stand alone, he can't throw off on anny disease thought and when a man complains he usually joins him in same and feels his pulses and makes him say—"a-h-a-h-h" ansforth. as soon as cooler weather comes in october, yore corry spondent believes that these 2 fine sick men will recov. ver their wanted health.

yores trulie,
 mike Lark, rfd,
 corry spondent.

Ant Control Requires More Than One Poison

Ants become a constant annoyance at this season of the year because of the damage they do to lawns and flower beds and because of their presence in the kitchen and pantry.

Because there are about 95 kinds of ants known in North Carolina, their control is a different problem. What is effective against one kind of ant is not always effective against another.

Dr. C. P. Metcalf, head of department of zoology and entomology at State College, recommends that the insects be destroyed in their nests. If they occur in lawns or in rotten logs, the ants may be eradicated by using calcium cyanide or carbon disulphide.

Calcium cyanide is a deadly poison, but may be handled out-of-doors by any responsible person. It should be scattered over the nests at the rate of about two ounces per square foot and then worked into the soil with a trowel.

Carbon disulphide, being more explosive than gasoline, should also be handled carefully. To use this compound, make small holes with a pointed stick to a depth of half a

time he was connected with publishing The Bryson City News. He went from here to Robbinsville in April where he took over the editing and publishing of The Graham County News, and was actively engaged in this work until last week when he became ill.

He is survived by his widow, and three children, Robert L. Sandidge, Jr., of Miami, Fla., Mrs. J. R. Rutland, Homestead, Fla., and Phil Sandidge, of Bryson City and Bladenboro, N. C.

foot or more and pour in about a teaspoonful of the liquid in each hole. The holes should not be over a half foot apart.

Some ants are attracted by sweets and others by fats, Dr. Metcalf points out. To make a sweet bait, boil together one pound of sugar, one pint of water, and 125 grains of arsenate of soda until the mixture is thoroughly dissolved. Then add one tablespoon of honey.

To make a bait for those ants which prefer fatty foods, mix together one pound of bacon fryings and one ounce of tartar emetic. Keep all baits out of the reach of children and irresponsible persons, Dr. Metcalf warns.

CHEVROLET TRUCKS

Chevrolet users say:

"They're the most economical trucks for all-round duty"

Perfected Hydraulic Brakes . . . Greatest Pulling Power in Their Price Range . . . New Steelstream Styling

FOR ECONOMICAL TRANSPORTATION

"Give us a truck with ample pulling power . . . one that is economical . . . one that will give reliable service over a long period for the least money."

That is the demand of all truck operators, and thousands of Chevrolet users will tell you that the best answer is—Chevrolet trucks!

Chevrolet trucks have the greatest pulling power in their price range . . . because they have a New High-Compression Valve-in-Head Engine which wrings the last ounce of power out of every gallon of fuel.

Chevrolet trucks are the most

General Motors Installment Plan—monthly payments to suit your purse.

CHEVROLET MOTOR DIVISION, General Motors Sales Corporation, DETROIT, MICH.

economical for all-round duty . . . because they give maximum gas and oil mileage, and will keep on serving over a long period with minimum care and attention.

And Chevrolet trucks are safer, more modern, more durable . . . because they're the only low-priced trucks with Perfected Hydraulic Brakes, New Steelstream Styling, Pressure Stream Lubrication, and extra-strong Chevrolet construction throughout.
