

Smiles

What There Is of It
"You must be brave, Billy. Take your courage in both hands!"
"One will be enough, mummy."

The ideal wife is the one who thinks she has the ideal husband. There is no ideal wife.

That Thing Called Swing
She—What heavenly swing! Let's dance?
He—That wasn't swing. The waiter just dropped our dinner.

NO WEIGH

"That fish dealer is dishonest in selling his fish!"
"Why?"
"Don't you notice he never makes use of the scales."

Little Faith

Mandy—"Don't you all know it's wrong ter believe in ghosts?"
Marcellus—"Ah don't believe in 'em. Ah wouldn't trust a ghost as fer as Ah could see him."

NERVOUS?

Do you feel so nervous you want to scream? Are you cross and irritable? Do you scold those dearest to you?
If your nerves are on edge and you feel you need a good general system tonic, try Lydia E. Pinkham's Vegetable Compound, made especially for women.
For over 60 years one woman has told another how to go "smiling thru" with reliable Pinkham's Compound. It helps nature build up more physical resistance and thus helps calm quivering nerves and lessen discomforts from annoying symptoms which often accompany female functional disorders.
Why not give it a chance to help YOU? Give one mild woman have written in reporting wonderful benefits from Pinkham's Compound.

Affections and Intellect

The affections come to school with the intellect.—Dr. Gregory.

Sentinels of Health

Don't Neglect Them!
Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.
When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.
Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.
The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

DOAN'S PILLS

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK.—As a token of good will, President Kemal Ataturk of Turkey sends his bomb-tossing adopted daughter on a flight over Greece and the Balkans. She holds a diamond medal for bombing Kurds, having out-scored veteran male fliers in a recent work-out.

When the timid and demure Turkish women started coming out from the harem, they kept right on going. They seem to be out-distancing our girls who are merely coming out of the kitchen.

Turkey's "Flying Amazon" is Sabiha Gueckchen, twenty-four-year-old daughter of a Turkish army captain who was killed fighting Greeks in 1921. She is a pretty little thing.

An admiring woman correspondent described her as "sny and demure," with quick recourse to her "modish little vanity case," as she climbed from her plane after a hard day's bombing. That was in the Der-sim area, in eastern Anatolia, in which she had been blasting the Kurds out of their caves.

She is a first lieutenant in the Turkish army, the only woman air force officer in the world.

Her French flying instructor says she is the most gifted woman acrobatic pilot in the world.

Sabina Best Stunt Flyer, Says Mentor
trained in flying and gliding in Russia and later was a cadet in the Turkish army air force school. She rides a single-seated military plane, handles all types of planes and is especially accurate and skillful in bombing.

It is said no aviator in Turkey can match her in diving and stunting, but she shrinks modestly from all such, possibly unfeminine, exhibitionism.

HERE is another diverting little news note, in sharp contrast, however, on the emergence of the modern woman. At her home in New York, Mrs. Lewis Stuyvesant Chanler presents prizes of \$750 to the winners of the annual "Intellectual Olympics," conducted by her new history society.

Happily the flying bomb put is not included in her decathlon. She has been for many years a diligent and earnest advocate of peace and brotherhood, working through the international Bahaiist movement, of which she has long been a leader. She derives from the Blue book and has turned from society to religious and humanitarian concerns.

Her husband, now retired, is a great-grandson of John Jacob Astor, and a former lieutenant governor of New York. He is a big, gray, silent man, walking a small white poodle dog, rarely seen at his wife's salon, but a loyal partner in her endeavors. He is the brother of the late Bob and John Chanler.

DOWN in Peru, this writer knew some dilatory natives who frequently used a word which meant, "not tomorrow, but day after tomorrow and maybe not then."

Dick Gets Degree 20 Years Late
From ancient parchments, Trinity college dons lift the reverse expression—"nunc pro tunc," which means "now instead of then." With this high academic sanction, they are enabled to deal a bachelor's degree to Richard Barthelmess, who failed to touch second when he was there 20 years ago.

Baseball moguls could now say "nunc pro tunc" and hand Fred Merkle that run he didn't get in 1908. If the custom gets going, it might open the way for some European debt payments.

Mr. Barthelmess is one of the thinning line of the stars of the old silent screen who remain in the public consciousness. His mother was Caroline Harris, an actress of the Biograph days. She gave Nazimova English lessons and in return Nazimova gave her boy his professional start in "War Brides." "Broken Blossoms," with Dorothy Gish, was his last big success.

THREE RULES FOR MARKETING CATTLE

Important Points Cited by University Expert.

By R. C. Aahby, Chief in Live Stock Marketing, University of Illinois. WNU Service.

To market fat cattle to advantage cattle feeders can do no better than to follow three fundamental rules. Stated briefly the three rules are to avoid overloading the market, to sell competitively and to fit cattle to the market.

In following the first of these rules, shipments will need to be adjusted to the capacity of the market to absorb them. This will require careful team work between cattle feeders and sales agencies on the markets.

To get the full strength of the market, it is necessary to sell competitively on the open competitive market, and to get the best available sales service it is advisable to sell through strong sales agencies.

By fitting cattle to the market, the third rule laid down, is meant watching them closely and selling when they become fat enough to sell to advantage.

The margin a feeder needs to carry cattle in summer—cattle that could be sold in June but might be held until September in anticipation of a higher price—depends largely upon the age of the cattle, it is pointed out.

Calves can be held much better than older cattle since they will continue to make fairly economical gains. Older cattle, however, if fat, gain little if anything during hot weather. Consequently, their entire feed bill during the holding period must be recovered by a higher selling price.

It is believed that a price increase of about 50 cents a month is needed in holding two-year-old steers in summer. Less is needed with calves, especially on 50 cent corn.

Use of Roost Poles for Turkeys Is Recommended

When poults reach the age of approximately ten weeks, and no longer need artificial heat, they prefer to roost in the open. At this time they may be transferred from their old brooding quarters to new range where heavy roost poles have been provided, says E. M. Funk, Missouri College of Agriculture.

A tier of roost poles made of 2 by 4 inch material laid sideways, and spaced from 18 to 24 inches apart on a platform of framing material that is 4 to 6 feet high, makes satisfactory roosting quarters for the turkeys. Posts are generally used to support the timbers on which roost poles are placed. Poultry netting or finely woven fencing wire should be used over the roost poles and around the sides of the roosting platform, to keep the poults from coming in contact with the droppings.

The same location for roosting quarters may be used throughout the summer and the turkeys driven to and from their daily range. This method of management will prevent the use of range some distance from where the turkeys roost. On many farms it is desirable to have them roost near the farmstead as a protection against theft. Where there is no danger of theft, roosting quarters may be changed at the time a rotation of the range is made.

Kafir Corn, Milo Maize

Kafir corn normally grows about 5½ feet high and if fully developed each stalk carries one head about 10 or 12 inches in length, three or four inches in diameter and rather loosely formed. Dwarf milo maize grows four or five feet tall and develops a very compact head, slightly larger in diameter in the center but not as long as kafir and rounded at the base and pointed at the tip. The grain of kafir is white, while that of the milo is reddish orange.

Care in Feeding Horses

Digestive disturbances are among the most common ailments of horses, and a large percentage of these are caused by improper feeding, says F. H. Olvey of the Missouri college of agriculture. While horses may be affected with digestive disturbances at any season of the year, such troubles are more prevalent in the spring and fall. Feed should be of the best quality, and all changes in feed, with a few exceptions, should be made gradually.

AROUND the HOUSE

Items of Interest to the Housewife

Starching Curtains.—Some laundresses claim that if curtains are dry before being starched they will keep clean longer.

For the Tourist's Comfort.—Little things that make a tourist room more comfortable are: a metal waste basket, ash trays, a drinking glass, a bedside mat to step on, a towel rod, and a pitcher of cool drinking water.

Tarnished Silver.—Moist table salt will remove egg tarnish from silverware.

Filling Nail Holes.—A mixture of sawdust and glue can be used to fill nail holes in woodwork.

Moths Like Soiled Cloths.—Moths do not attack clean woolen articles as readily as soiled ones.

The Right Vase.—It is so important to note the colors in the vase and the colors of the flowers to be put into it and be sure they are in their proper settings. The right type and color of vase in contrast to the blossoms is what completes the picture.

Add Beauty to Your Linens

Pattern 6106.

A quick "beauty treatment" for your linens—this easy-to-crochet border and simple embroidery motif! Pattern 6106 contains a transfer pattern of two motifs 6 by 11 inches, two motifs 4 by 12 inches; and two motifs 5¼ by 6 inches; chart and directions for crochet; color schemes; illustrations of stitches; material requirements.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle,

Household Arts Dept., 259 W. Fourteenth St., New York City. Please write your name, address and pattern number plainly.

If your dealer cannot supply you, send 20c with your dealer's name for a Trial Package of 48 genuine Pe-Ko Jar Rings; sent prepaid.
