

Boxing Bouts Are Staged By Woodmen Here

An exceptional program of entertainment was provided members of the Woodmen lodge and their guests in Murphy Tuesday night.

Ten amateur boxing bouts and a program of music was arranged. Sandwiches and lemonade was served the approximate 100 who attended the affair in the lodge hall.

In the boxing bouts, Morris Clacker met Jerry Mallonee, Fred Swain met George Walker, Fred Nichols met an unnamed opponent, Wiley Haynes met Elbert Mallonee and Claude Gross met Toby Hale, former Golden Gloves Southeastern champion.

Five scummy Negro bouts added to the pleasure afforded the customers. Those swapping punches were: William Suddeth and Louis Hyatt, Roy Henry and Elmer Harrison, Lona Webster and Willard Allen, Felix Blackwell and Luke Austin and Fred Goffitt and Owen Loyd.

Music was furnished by J. H. Duke, Austin Arrant, Carl and Paul Housley.

During the festivities Dr. E. L. Holt welcomed the guests.

Judge Hill Dies In Richmond Wednesday

Continued from page one

Judge Hill was one of Murphy's favorite sons. His initiative and friendliness brought him early to the front in the legal profession of North Carolina, as attested to by the fact that he was appointed to the Superior court bench at the age of 35.

Surviving Judge Hill are: his widow, who was at his bedside when the end came; a brother, Lowrey Hill, of Murphy, and five sisters, Mrs. Mona Franklin, Mrs. Toby Fain and Mrs. Mary Nell Babentine, all of Murphy;

Engineers Society Visits Hiwassee Dam

Continued from page one

overflow dam in the world. The lake to be produced by this barrier will contain 430,000 acre feet of storage and will back up water to Murphy, a distance of about 22 miles. A power plant is being installed to utilize the power inherent in the release of storage water from the dam. One 60,000 kilowatt, 80,000 horsepower generating unit is being installed at present and provision is made for the future installation of a duplicate unit.

About 790,000 cubic yards of concrete will be poured in the construction of the dam and powerhouse. All of the aggregate, including the sand required for making the concrete, is manufactured at the site from rock procured at the adjacent quarry. The aggregate plant which manufactures the crushed rock and sand is one of the most nearly complete plants of its kind in operation. The dust control system is one of the features of the plant.

This project is now at an interesting stage of construction. Slightly more than half of the total amount of concrete in the dam has been placed to date. Construction of the powerhouse building has been started. The closure blocks of the dam are being placed and the river is discharging through the floods regulating conduits.

The setting of the dam and the construction village in the heart of the scenic North Carolina mountains makes the trip especially attractive to visitors.

CHILD IS IMPROVING

Mildred, the four-year-old daughter of Mr. and Mrs. Charlie Black, of Murphy, has returned home from Athens, Tenn., where she received a serious injury on Easter Sunday when she fell from a moving automobile.

Mrs. Lucille Cleveland, of Birmingham, Ala., and Mrs. Hugh Gilbert Abernathy, of Copperhill, Tenn.

LOCAL PROJECTS ARE DISCUSSED BY LIONS CLUB

Supervised Playgrounds, Advertising Committees Named

A number of local civic projects were discussed Tuesday night by the Murphy Lions club at their regular semi-monthly meeting.

Park Fisher, of the John C. Campbell Folk School, Brasstown, presided in the absence of President Harve Elkins.

A committee was appointed to work with the various womens clubs in town in promoting a supervised playground for the summer through local and TVA funds. Those named on the committee were: K. C. Wright, chairman, Sam Carr and H. Bueck.

Another committee was appointed to raise funds to match a general fund to be raised by the Robbinsville Lions club and the Andrews Rotary club to distribute advertising throughout the South designed to bring more tourists into Cherokee and Graham counties this summer. The committee is composed of: Sam Carr, chairman, A. Q. Ketter and T. W. Kindley.

The advertising program was outlined recently at a central meeting held at the Andrews Rotary club by Capt. Frank Swan, of Andrews, who stated that the Andrews American Legion post was sponsoring the advertising drive. He solicited the aid of other clubs in this section. The plan is to have one man travel to Asheville, Nashville, Tenn., Atlanta, Ga., and other large cities to make personal contacts with travel bureaus and chambers of commerce and leave literature with them outlining the attractions and inviting tourists into this section of Western North Carolina.

The maintenance of the Southern passenger train from Asheville, the Lions Information booth, and the Murphy cannery were among other matters discussed at the meeting.

Dr. W. A. Hoover, owner of Petrie hospital here, was a new member attending the meeting.

Dog Vaccination Program Is Given

To prevent the spread of Rabies and to keep Cherokee County's large dog population from going mad, biting livestock, cattle and, last but not least, to prevent 25 or more persons from having to take the very painful Pasteur treatments, the dog owner are expected to comply with regulations requiring that all dogs in the County be vaccinated.

For the information of all the following schedule of places to bring your dog and the time is announced. All dogs must be vaccinated each year. There is no danger, as some people think, to the dog that is vaccinated.

Houk Is Speaker At Graduation Exercises

Continued from page one

want to go to college and get a white collar job. Too many God-given plasters have been turned into lawyers, preachers and other pursuits to the loss of the various professions."

Mr. Houk referred to the Mid-Western senior class which used as its motto, "WPA Here We Come", as an example of the mistaken attitude assumed by many graduates today. "Find out what the students can do. Then provide the means for them to do it", he added in outlining "the most sane form of education".

The speaker then directed his address to the seniors themselves and spoke to them on the "Three C's": confidence, courage and character.

He outlined to them the wide fields of endeavor that were open to them today with the steady and enlarging growth of progress. "You haven't seen the first of progress", he said. "It is just as necessary that you know what you can't do, as what you can do."

He was introduced by H. Bueck, superintendent of the schools of the Murphy unit.

The exercises opened with the professional by Miss Roberta Carringer at the piano. The salutatory address was given by Mrs. Violet Anderson Mull, daughter of Mrs. Lydia Anderson, of Kinsey. Several choral numbers preceded Mr. Houk's address.

Awards of medals were given by K. C. Wright, principal of the high school, and Mr. Bueck, H. G. Elkins, chairman of the Murphy Board of Education, awarded the diplomas assisted by Mr. Bueck.

The valedictory was rendered by Miss Mary Frances Bell who maintained the highest scholastic average of the class throughout high school. She is the daughter of Mr. and Mrs. M. W. Bell, of Murphy.

Marshals for senior exercises were: Helen E. Hampton, chief; Helen L. Wells, Mary Lee Roberts, Blanche E. Thompson, Alice Kate Martin, Charles G. Weil, Ben E. Warner, Jr., J. L. Abernathy and Wiley C. Kinney, Jr.

see Valley Authority has agreed to co-operate with us in handling that part of the system outside the Town.

"If this deal is closed and the Southern States distribution system taken over by the Town of Murphy and TVA power used it will result in a saving at least \$20,000 yearly to the people of Murphy. We expect the negotiations for the sale of this plant to be completed and to have TVA power at the TVA rates within thirty days or less time.

"The present board has at all times proceeded in good faith, and is now proceeding in good faith, to get this power, and all persons running on that ticket pledge themselves to continue this policy and bring TVA power to the Town of Murphy.

Elections To Be Held In Three Communities

Continued from page one

tion in the Library and nominated W. T. Holland, for mayor, and Zala Adams, J. Frank Bristol, S. E. Covey and Wade A. Reece for aldermen.

The Town of Marble, said to be the smallest incorporated community in North Carolina, will vote Tuesday on whether or not to abolish their town charter. At a recent meeting of the town aldermen it was decided to hold a vote on the question.

On the event the town's charter is not abolished in the election, a ticket consisting of mayor and three aldermen was announced for the office. They are: W. B. Mulkey, for mayor, and B. B. Palmer, C. M. Trull and N. W. Abernathy for commissioners.

The candidate for mayor and the candidates for commissioners of the Town of Murphy on the New Ticket say that they have made no promise or intimation as to who they will appoint to the various appointive offices, if they are elected, and any statement to that effect is not true.

The candidates further state, that if elected they will do all in their power to cut the expenses of the Town and reduce the taxes, and that they will repair the streets in all sections of the Town, and that they will do all they can in every way to promote the best interests of the Town.

The following statement was made by the group seeking office on the ticket headed by Mr. Gray:

"Everyone is familiar with the long effort that the present Mayor and Board of Commissioners of the Town of Murphy have made in the face of apparently insurmountable obstacles to obtain TVA power for the Town. (1) Southern States Power company did not seem inclined to sell to us. (2) At one time it seemed that Nantahala Power and Light company had bought the system. (3) The effort made to procure relief through the legislature was defeated by the power interests and the utilities commission.

"In the face of all this the present Mayor and Board of Aldermen worked unceasingly, made numerous trips, and gave freely of their time in an effort to procure TVA power, refusing to be discouraged by the apparently hopeless outlook. This has brought results. Nantahala Power and Light company has offered to sell to the Town of Murphy an interest in the distribution system, to close the deal immediately and to give us possession of the distribution system. It has authorized full examination by the Town of its books and records to ascertain the correctness of its representations as to the reasonableness of the price at which the system is offered to the town. The Tennes-
