

MR. and MRS. CHEROKEE COUNTY,

LOOK!

After 30 Years We Have Entered A New Line

**We've Gone in Partners With The
GENERAL ELECTRIC COMPANY**

**With a full line of appliances that makes housework more
pleasant and cuts it in half**

Beautiful 1940 models—lovely to look at—indescribably efficient—cheap to operate—reasonably priced.

A SPECIAL BARGAIN IN REFRIGERATORS

Buyers of these refrigerators are protected not only by our own 30 years reputation of guaranteed satisfaction but are still further protected by a written guarantee by the billion dollar General Electric Company.

We can prove to you that one of these refrigerators will pay for itself in the food it saves.

Many sizes—low and long term payments.

ELECTRIC RANGES

No more splitting and carrying kindling. . . no more smoke and smell. . . no more half-freezing while you start a fire for breakfast . . . no more soot. . . no more ashes to carry out.

Just turn a switch, . . . and start cooking.

With the new low power rates, an electric stove is a real economy—and it makes every meal a certain success.

Here, too, are different sizes—reasonably priced and low, long term payments.

WASHING MACHINES

Clothes are made spotless—and again all you have to do is turn a switch. You don't even have to watch.

No need to go out in the cold and bend over that big steaming kettle. . . . This washing machine is so small it can be placed in any corner of your kitchen. It works silently, and you needn't go near it until time to turn off the switch and take the clothes out.

You'll find those clothes cleaner than you could make them in three hours of back-breaking scrubbing. And the action is so gentle that you can put your finest laces in and get them out unharmed.

General Electric Washing Machines will actually save your clothes. . . your back. . . and your temper. They will do the whole family wash for only a few pennies.

They cost little. Small monthly payments will put one in your home—and it will be a real investment in happiness.

COME AND SEE US WHILE YOU ARE HERE AT THE FAIR

Look over our modern new store. . . let us explain. . . let us demonstrate, without the slightest obligation on your part.

WE'LL BE GLAD TO SEE YOU,—ALWAYS—AT

WOFFORD TERRELL'S

Just Below The Methodist Parsonage

**This is a personal invitation to you from
George Mauney, Mgr.**
