Unit Demonstration **Farmers Urged To** File Record Books

All unit demonstration farmers in the county have been advertised by county agent A. Q Ketner to turn in their record books before January 1. 1941, in order to be eligible for the TVA phosphate allotments.

Such practices have shown an actual good benefit for these farmers during the past year. During 1939 only 33 farmers were keeping record books. Their records showed such clear cut profits that the plan was adopted by 33 others who, with the county and had resided in Graham exception of one or two who dropped out, brought the 1939 number of demonstration farmers up to 61.

> Meetings were held in Peachtree Martins Creek and Maggie's Chapel communities for the benefit of area demonstration farmers in the various watershed areas during the past week. Progress reports were made out at these meetings and filed with the county agent in order that each of these persons would be eligible to receive the phosphate under the new year plan.

> Many of those who were unable or for any reason failed to attend these meetings, were advised by Mr. Ketner to file his report at the county agent's office in time to be eligible for the phosphate.
