**Agent Urges Farmers To Complete Triple A Units; Cites Lime Use**

An urgent warning was sent out to farmers in the Triple A program this week by county agent A. Q. Ketner to carry out all their required units in order to receive maximum soil conservation payments this fall.

The time limit set for completing the program is October 31 and after that time payment will only be made for units carried out.

J. H. Enloe, field agent for the AAA, met with all county and community committeemen on September 4 to discuss methods for completing units on these farms. The primary object discussed was the proper spreading of lime secured under the 1941 program.

Ketner pointed out that the farmers who did not get their lime spread would be charged \$2.00 per ton on their payments. He further recommended that they start spreading now in order that their applications for payment would be acceptable quicker.

Farmers cooperating with program who need more lime to complete their units must place their order before September 15 in order to receive it. Those who have completed their units are urged to report it to the county agents office now, and others should report as soon as they have finished.

**SNOW HILL NEWS**

**Steady Rise In Cost Of Food Explained By What It Takes To Feed "Our Boys"**

If you have wondered why the cost of food is rising, look over the following list needed to feed the Second and Third Armies in their current maneuvers in Louisiana:

One hundred and sixty three thousand hogs will lay down their lives to keep the boys supplied with ham sausage, salt pork, hot dogs, and the like.

It would take a champion, egg-laying hen 100,000 years to lay enough

eggs to supply the boys with breakfasts. Other quantities of food consumed are as follows:

Potatoes, 8,756,700 lbs.; Oranges, 13,680,450; Evaporated Milk, 2,478,540 14 1/2 oz. cans; Coffee, 2,060,400 lbs.; Butter, 1,624,080 lbs.; Bread, 11,271,600 lbs.; Apples, 10,852,350; Sugar, 2,402,790 lbs.

Half the people in the United States could sit down and make a meal of what the men in the Third Army will consume in sixty days.
