

Life's Vexations

Life is a tender thing and is easily molested. There is always something that goes amiss. Vain vexations—vain sometimes, but always vexations. The smallest and slightest impediments are the most piercing; and as little letters most tire the eyes, so do little affairs most disturb us.—Montaigne.

U. S. MOUNTAIN WARFARE

The army is buying pitons, karabiners, ice axes, skis, sleeping bags and parkas, to be used not in an expedition to the North pole but in preparation for warfare on snow-clad mountain sides.

If you ask what mountain sides the reply is: "We are preparing for any emergency." Army chiefs have carefully noted what has been done in Europe in mountain and winter warfare, and they intend that U. S. troops be trained in the same tactics.

Today, in the Railroad Retirement building (headquarters of the quartermaster corps) you can find a group of men known as "the Cold Climate Clothing and Equipment unit." They are ski experts and mountain climbers, who know by rigorous experience what is needed for life in the cold latitudes and high altitudes.

They are Pastor Robinson of the National Ski association, Robert H. Bates, editor of "Five Miles High"; and William House, a famed climber and explorer. Working indoors ten hours a day, they are preparing specifications for the best military skis, the best goggles, boots, and high-pressure stoves that can be carried in a knapsack.

Note: Germany's expert in mountain warfare, Paul Bauer, carried out his last peacetime mountain climbing exploit in the Nanga Parbat expedition in India in 1938—with the consent and co-operation of the British government.

MRS. WOODROW WILSON
Mrs. Woodrow Wilson sewed for soldiers 25 years ago, and now she's doing it again.

Every Wednesday morning, she meets at the swank Sulgrave Club for Red Cross sewing with Mrs. Jesse Jones, and Mrs. D. Buchanan Merriman, better known as the duchess of Windsor's "Aunt Bessie."

After the sewing, they lunch at the club, then adjourn to Mrs. Jesse Jones' apartment at the Shoreham hotel, or to Mrs. Wilson's home on S street, for bridge.

The lady who, as "the beautiful widow Galt," set all the town talking during World War I, still sets the town talking wherever she appears today. She gives her name freely to Democratic party and patriotic causes, but her most regular activity is providing floral decorations for the Wilson shrine at the National Cathedral. She has made a study of floral arrangements, personally supervises the decoration every few days.

Measured by the code of the cave dwellers, Mrs. Woodrow Wilson is an active woman, but she stares in amazement at the activity of the First Lady of World War II.

SUGAR SHORTAGE

If there is an investigation of the sugar shortage, certain agriculture department masterminds will have to do a lot of explaining.

Few know that these masterminds, over the protests of domestic beet-sugar producers, last year forced a reduction of sugar-beet acreage of from 17 to 20 per cent; also that cane which would have yielded 300,000 tons of sugar was left to rot in Puerto Rican fields because processing was prohibited.

Sugar producers on the other hand, vigorously urged that domestic quotas be lifted to permit maximum output. But the agriculture moguls refused to heed these warnings. Led by Secretary Claude Wickard, they insisted the United States had ample sugar supplies for all needs—and they kept on choringing this refrain right up to a few weeks ago when Wickard, as a guest speaker on Mrs. Roosevelt's Sunday night radio program, completely changed his tune and broke the news that sugar would have to be rationed.

Wickard bases the shortage on two grounds: (1) heavy demands from our Allies, particularly Russia, whose sugar producing region has been devastated by the Nazis; (2) greatly reduced imports from the Philippines and Hawaii.

The Philippines are out, but not Hawaii. Large munitions shipments are constantly going to these islands, and sugar is coming back.

Agriculture department tycoons are making a big ado about how essential their activities are to the war effort. One essential might be less bungling in unrestricted farm production.

Note: Puerto Rico now has on hand, and waiting to be ground, more sugar-cane than it is allowed to process under the production quota set by the agriculture department.

Household Hints

A well seasoned bread-oyster stuffing may be used as a filling between layers of fish steak.

Raisins, dates, figs, currants should be soaked five minutes in boiling water before using. Use two tablespoons of water to each half cup of fruit.

Dirty flat-painted or varnished surfaces, such as walls or floors, should be washed gently with a mild soap. Wash a small area at a time, rinse it with clear water and wipe dry.

Imperfect Copies

Our human laws are but the copies, more or less imperfect, of the eternal laws, so far as we can read them.—Froude.

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions.

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

IMPROVED UNIFORM INTERNATIONAL SUNDAY Lesson

THE MIGHTY WORKS OF JESUS

LESSON TEXT—Matthew 8:23-34. GOLDEN TEXT—What manner of man is this, that even the winds and the sea obey him!—Matthew 8:27.

The mighty works of Jesus declared Him to be the Son of God—yes, very God Himself. Unbelieving men who would discredit the Word of God and deny the Godhood of the Son are at much labor and trouble to explain away the miracles, but without any success.

In our lesson for today we have Christ showing His divine power over the forces of nature, and over the demons of the evil spirit world. We find the disciples in the storm—

I. Fearful—but Not in Danger (vv. 23-27).

The Son of God—who had become Son of man—showed His true humanity by that weariness which made Him sleep through a tempestuous storm such as often came upon Lake Galilee. "Like a general in time of war Jesus slept when He could."

As He calmly slept, fear of destruction laid its deadly grip upon the hearts of the disciples. For the moment they saw only the angry waves, the smallness of their craft, the hopelessness of their situation, apparently forgetting that with Christ in the boat they were in no danger, in spite of the fearfulness of their surroundings and circumstances.

Is this not clearly a lesson for us in this day so full of alarms and fears? If we think of circumstances and conditions round about us we shall be overcome with fear—and well we may, if we do not have Christ with us in the boat of life. But if He is there—if we are His in the kinship of regenerating grace—we are in no danger. Shall we not accept the tender rebuke, "Why are ye fearful, O ye of little faith?"

The majestic scene of Christ stilling the tempest, reminds us not only that He can control any force of nature, but also that there is no storm of heart or mind or life to which He cannot authoritatively say, "Peace, be still" (Mark 4:39). Will you trust Him with your problem?

On the other side of the lake Christ met another kind of need—and cared for it. He there delivered two men who were—

II. Demon-dominated, but Not Hopeless (vv. 28-34).

There is only one devil, but he has many demons who do his bidding. The evidence is clear that these demons were able to enter into the personality of a human being and take control of the life. This was not insanity or a sickness of the body, but devil domination.

These two men (Mark and Luke speak only of one—perhaps the more violent of the two) were so strong and wicked because of the demon in them, that their relatives and friends had given them up as hopeless and had sent them out to live in the wilderness.

How horrible is the power of the devil in the life of any man or woman. But let us never forget that while no man can control such a situation (Mark 5:4), God is able. "With God all things are possible" (Matt. 19:26). We have not done all we can for our devil dominated friends and relatives until we have brought them to Jesus.

Notice that the demons recognized Christ as the Son of God (v. 29). They knew that He had the power to control them and that the day was to come when He would judge them.

The men were completely cured (Mark 5:15) as the demons were permitted to enter the herd of swine. Those poor beasts, apparently not content to harbor the evil spirits, cast themselves into the sea.

When the people of the land heard what had taken place they asked Jesus to leave. They evidently weighed the relative value of two men in their right mind over against a herd of swine and decided that they could not afford to have men delivered from the devil at such expense.

Unfortunately the "descendants" of those people seem to be in some of our churches today. They can afford anything in the way of luxury for themselves, but they are sure it costs too much to keep the church open—or to provide a preacher—or suitable equipment for the Lord's work. How unspeakably sad!
