War Fund And Red Cross Are Separate Drives

WASHINGTON—In answer to various inquiries with respect to the opening of the National War Fund Campaign, the following statement was made by Norman H. Davis, Chairman of the American Red Cross:

"The American Red Cross and the National and Community War Funds carry on separate drives and independent activities but they supplement each other and are united in the will to serve. In accordance with the decision of the President's War Relief Control Board, the Red Cross will conduct its 1944 War Fund next March, while the National War Fund Campaign is being held this month. The Red Cross wishes the National War Fund leaders every success in their appeal."

Free Mail For Lost Ration Books

If you find a lost OPA ration book—owner is just as near as the nearest mail box.

Here's all you do to return it to the owner:

Drop any found ration book into the mails without wrapper or postage and the postoffice will deliver the lost book to the owner whose name appears on the cover.

The postoffice will collect a five-cent "postage due" charge from the owner. If the owner cannot be found, the postoffice will deliver the book to the nearest war price and rationing board. Theodore S. Johnson, Raleigh District OPA director, said today.

Says Fats Are Urgently Needed

James B. Volger, WPB executive salvage secretary for North Carolina, said today that many housewives in this state have been neglecting to salvage used kitchen fats and turn them in immediately to the neighborhood butcher shops so that they can be channeled to war plants.

"Many people do not yet realize the great military need for this used scrap," Mr. Volger said. "It is essential in the manufacture of glycerine, and glycerine is necessary to produce explosives, and for many medicinal purposes."

Mr. Volger explained that glycerine is present in tincture of opium and geriatric, used as sedatives to ease the pain of wounds, in sulphadiazine ointments, in smallpox vaccine, and in some insulins prescribed for shock supplies of which must be greatly increased as our armed forces advance farther into battle areas."

It is urgent that the present campaign now on for scrap shall bring out all fats in the stores of North Carolina that have been accumulated.

The civic clubs working on this particular phase of the salvage program, are urged to exhaust every effort to see that our quota is attained.

Dairy Farmers Should Keep Sales Records For Payments

All dairy farmers of Cherokee county should keep accurate records of sales of whole milk, cream, or butter in order to obtain payments which will be made to farmers by the War Food Administration to offset increases in dairy feed costs since September 1942, it was announced today by J. H. Hampton, chairman of the County AAA Committee.

"This payment was announced sometime ago by the War Food Administration, and at that time farmers were asked to maintain records of all sales," he said. "These records are essential if farmers are to receive their payments. The rate of payment in all North Carolina counties has been set at 40 cents per 100 pounds for whole milk and 5 cents per pound for butterfat. Since payments are based on poundage, dairymen should make certain that records furnished them by buyers show the hundredweight, and not merely the quantity of butterfat in the milk."

Luggage Prices Are Uniform

Effective Monday, all types of luggage, including the soft or zipper variety, was placed under a uniform system of retail ceiling prices for luggage by OPA, regardless of what type of store sells it.

The purpose is to check rapidly rising prices for luggage in the face of a shortage of luggage supplies. The effect, an OPA statement said, will be to reduce retail prices considerably and after November 1 all luggage sold at retail must carry tags showing the specific top legal price for that item.

Some Improvement In Pulpwood Supply

Some improvement in the pulpwood supply picture for 1943 is apparent in reports from pulp and paper mills for July and August. August deliveries were up slightly more than seasonal over July, but still substantially below the 1942 and 1941 figures. A. B. Hansen, Deputy Director of the WPB Pulp and Paper Division, advised the Newspaper Pulpwood Committee this week.

It is too early yet to predict whether this trend will hold and gain momentum. Mr. Hansen said, but it is encouraging as a response to the current newspaper-industry victory pulpwood campaign created to induce farmers and small woodland owners to engage in cutting pulpwood.

The most noticeable upswing was in the South, but encouraging trends were indicated in other sections of the pulpwood producing areas which include the Northeast, Appalachian and Lake States, and the Northwest regions.

No More Hours For Service Stations

Theodore S. Johnson, Raleigh district OPA director, said today that the Petroleum Administration for War had removed the regulation of service station hours of operation.

However, Johnson said, the PAW has asked that service station operators to meet with other dealers in their areas and establish local limitations upon hours of operation by voluntary agreement.

MEATS

Ration points do not have to be given for long tongue of beef, brains and kidneys. These meat items are relatively low in cost, and high in food value and flavor.

To Provide Better Service

As a wartime measure to provide better service for military and essential business travelers, the Southern Railway System, in concert with the Eastern Railroads, has adopted a new plan for handling advance reservations for space in Pullmans and reserved seats in coaches. Effective at once, no reservations or requests for reservations will be accepted more than 30 days in advance.

WASTE
A recent survey indicates that the average city housewife wastes more than three-fourths of a pound of food for each individual every day. The highest waste is in perishable fruits and vegetables.

Of Course You're Thrilled, Young Lady!

... So many things have been happening since school started... so many new friends to talk to, and so much to talk about.

Certainly you're thrilled, young lady! But before calling, please remember that all telephone lines are crowded now. If you're a party line user, it's especially important to avoid unnecessary calling—and to speak briefly always. Telephone materials aren't available to build enough lines for everybody, so we must make the most of the facilities we have.

Your help in keeping the lines clear will be appreciated by a lot of people.

NOTICE TO Delinquent Taxpayers

To All Persons owing 1941 and 1942 Taxes. I must make settlement of all 1941 and 1942 Taxes. I am required to collect them, and Board of County Commissioners demand that I collect personal Property Taxes, and settle at once and I must collect them from you.

The law requires that I levy on your personal property and unless these taxes are paid at once (Public Laws 1939, Chapter 310), I am forced to make the levy. I can only call on you one time. My representative must collect or levy at that time. Levy means taking the property. This October 20th, 1943.

LOOK WHAT THAT LITTLE DRIP IS DOING TO ME!

Who would have ever thought that a little drip of water can cause an Electric Water Pump to run overtime—but it does! That one little faucet has leaked out 600 gallons in the last month, causing me to run that much longer and use that much more electricity. Tighten up those faucets, and you'll help me SAVE ELECTRICITY.
