Food Fights For Freedom

If you hear a loud "Bang" some time during the first part of November it will be the opening gun in the "Food Fights For Freedom" campaign. Newspapers, magazines, radio, motion pictures, and advertisers will cooperate with agriculture representatives of all agencies to carry the message to every home in the United States.

Food is as much a weapon of war as guns and tanks, as ships and planes. Everyone who produces extra food and cooperates in food rationing is a true soldier because food really fights.

The State College Extension

Service is preparing a special bulletin, entitled "North Carolina Fights With Extra Food", for Tar Heel neighborhood leaders who will take part in the food fight of production and conservation. The publication outlines how food fights, what the food needs are, and how North Carolina can best serve in the campaign.

Thousands of leaders in every walk of life will be needed to put the food program over and North Carolinians are asked to rally to the cause. The need is so great and the demand for extra food is expanding so rapidly that no matter how much food is produced there still will not be enough to meet the demand.

North Carolina is already leading the Nation's food parade. In the value of farm products used by farm households North Carolina lists 19 counties in the first 100 counties in the entire U. S. In the value of vegetables grown

for home use on farms, there are 24 counties in the first 100. But, this is no time for slapping ourselves on the back. As to 1944, we have led the parade before and we can do it again.

EXTRA POINTS

Persons who wish to send packages of rationed food overseas may get the necessary points by applying to OPA. Those who wish to have the dealer from whom the food is bought arrange for the shipment may do so without giving up ration stamps since OPA will replace, on evidence of export, the point value of the foods dealer ships to armed service personnel overseas or to prisoners of war.

TURKEY

The entire turkey needs of the armed forces, totaling approximately 35 million pounds, represent less than 10 percent of the total U. S. supply, says the War Food Administration.

ARMISTICE 1918 DAY 1943

WE who will not be scarred in battle have a glorious obligation to those for whose return we pray! We can, in part, fulfill that obligation this significant day — by reverently observing "Taps for the dead — FOR THE LIVING, WAR BONDS". There is none among us who can say, "I have bought enough". Just as no man in uniform can say "I have fought enough". To him the supreme sacrifice is reality; to us too, sacrifice must be supremely worthwhile — in the name of Victory!
