Take Bean From Lung Of A Child

Homer Taylor, 15-months-old son of Mr. and Mrs. Robert Taylor, of Greeta, was reported to be in a fair condition at Dr. Murdock Equen's infirmary, Atlanta, Tuesday night after having a butter-bean removed from his lung by Dr. Equen, ear, nose, and throat specialist.

The child was rushed from Murphy to Atlanta Monday afternoon by police officers of North Carolina and Georgia for the operation. Chief of Police Frank Crawford drove the child and his parents to Blue Ridge. where they were met by Cpl. Charles Finger of the Georgia highway patrol. It was reported that the distance from Blue Ridge to Atlanta was covered in one hour and five minutes.

According to information received here, swelling already had set in around the butterbean when the child reached the infirmary and it was necessary to cut it out of the lung.

The bean became lodged in the child's throat about 1 o'clock Monday afternoon, and it was about 5:30 o'clock when was brought to Dr. F. V. Taylor at Murphy General hospital, where X-ray pictures were taken by Dr. B. W. Whitfield, who called Dr. Equen in Atlanta and made arrangements
