YOUR LIBRARY

By Dora Ruth Parks Regional Librarian

"A Friend of Libraries" -This is a good term and one which may be applied to Mr. M. W. Bell. He was an especially good friend to the Murphy Carnegie Public Library. During his years of service as Chairman of the Board of Trustees, he saw rather important developments take place in MR. W. M. FAIN Murphy Library Service. A philo-MR. NOAH LOVINGOOD sophy of Public Libraries develop- MR. A. L. MARTIN ed in Murphy and spread into Cherokee. Clay and Graham counties. That philosophy is even more far reaching, because now people in all three counties are passing it on to other com-munities into which they move The many hours which Mr. Bell contributed to the community activity are paying dividends to every citizen in Murphy and in Cherokee, Clay, and Graother trustees and individuals the service available

Gasoline Black Markets Spread

The spread of gasoline black markets in the southeast, in which gas is purchased with stolen or counterfeit coupons, has caused the temporary "drying up" of filling stations in several areas, notably in North Carolina, the Office of Price Administration has announced.

Gasoline black markets, OPA officials admit, is one of their most serious problems and L. W. Driscoll, district director of OPA at Charlotte, said: "It is doing more than encouraging crime; it is actually sapping the strength of the whole war effort and is robbing honest car owners of their share of the nation's limited sup-

"It should be remembered", he continued, "that there is only so much gasoline available for home use and that amount cannot be increased because there is an Asheville, N. C. actual shortage of petroleum, too. It has been estimated that black market parasites are robbing motorists of about 45 gallons of driving each month. But for this illegal black market drain, the value of "A" coupons might be 25 per cent greater.

OPA's enforcement chiefs. Mr Driscoll related, regard the public's indifference to black markets as the most serious obstacle in the agency's war against illegal traffic. He repeated OPA's nationwide request to all motorists to endorse their gasoline coupons with the license number in ink at the time they receive them from their local Boards, or, if they have not done so, write the license number across the face of them at once

"Anyone who buys black mar ket gasoline," he said, "is getting more than his share at the expense of others. Many people believe that gasoline rationing is intended to deprive them of the use Consumers Meter Deposits. of their cars. Exactly the opposite is true. Rationing is in-Surplus Reserves, tended to provide a fair share of Surplus, scarce gasoline to all so that the nation's essential automobiles can keep rolling."

PIGS

Every time a four-months-old pig dies, about 300 pounds of feed is lost, says Dr. C. D. Grinnells, Experiment Station veterinarian at State College.

Audit Report Town of Murphy, North Carolina As of June 30, 1943

FROM THE OFFICES OF W. Bowen Henderson Certified Public Accountant ASHEVILLE, NORTH CAROLINA

MR. J. W. FRANKLIN, Mayor BOARD OF COMMISSIONERS

DR. W. A. HOOVE MR. ROBERT WEAVE DR. B. W. WHITFIEL

AUDIT REPORT - JUNE 30, 1943

The Mayor and Board of Commissioners, TOWN OF MURPHY, N. C.

We have examined the records of the TOWN OF MURPH (N. C.) for the fiscal year ended June 30, 1943 and present report based upon the records examined. At May 31, 1943 we confirme water and electric consumers accounts and received a majority of replies agreeing with the records. Previously, at May 3, 1943 v audited cash transactions for the fiscal year to that date

We traced deposits to bank statements and examined all cancelle nam counties. The use made of checks. Bonds and coupons retired and cancelled were examined library facilities is a literal "note Cash receipts and disbursements registers were examined in detail of thanks" to Mr. Bell and to all and supporting evidence was test-checked. Postings to the general ledger were proved and numerous accounts were analyzed. The 194 who give of their time to make Tax Levy was proved in detail. Tax receipts were accounted for a eash or uncollected taxes.

From information at May 15. 1943, it appears that the refinance ing is complete and that some monies should be returned to the Town of Murphy upon request. At this time we do not have a state ment from the Local Government Commission subsequent to May 15 1943 and some charges to your account may have been made afte that date. However, it appears that there is \$1,001.79 on deposit with the Local Government Commission which could be returned to you.

Beginning January 1, 1942, bond coupons were payable at Central Hanover Bank and Trust Company in New York City and the Town of Murphy sent funds to them for payment of the coupon when presented. The maximum amount of coupons due on any interest date was \$3,105.00 generally, \$3,000.00 was deposited therefor but on one occasion \$4.000.00 was deposited.

At the same time, the Local Government Commission had no exchanged all bonds and later upon exchange paid matured coupons for which monies were on deposit with the Central Hanover Bank and Trust Company. The result of the foregoing was to create excess funds in the custody of Central Hanover Bank and Trust Company in an amount of approximately \$1.165.00. The Bank holds such funds in various coupon accounts the total of which is \$1,645.00 as all proper matured coupons have not been presented. We did not attempt to assign the apparent excess of \$1.165.00 to particular coupon accounts as kept by the Central Hanover Bank and Trust Company

In February 1943, the Town of Murphy bought and retired a face amount of its bonds totalling \$12,388.36 at a cost of \$11,136.04. We will welcome any questions arising upon your further examination of this report
