Saipan New Hub in Pacific War

As the biggest mayal task force in history battles for the island of Saipan (1) in the Marianas group and for Saipan's fine airfields, the importance of this particular spot—some 1465 miles from Tokyo and 1470 miles from the Philippines—becomes increasingly evident. Quite outside its proximity to the Bonins, located about 600 miles from Japan, which have just been attacked by a big carrier task force, Saipan is reported to have flat areas made to order for big land air bases.

Some already are visioning the giant Superfortresses radiating from Saipan (as arrows show), as well as from China (2) to blast Nippon's big manufacturing areas and slam at the Philippines. Presence of great naval forces there, plus other forces battering at the Bonins, indicate that the big smash is on. It is/pointed out that the recent capture of Biak (3) off New Guinea provides bases for cracking at areas indicated by arrows.

The Rev. W. L. Hutchins, superintendent of the Waynesville district of the Methodist Church, ly through the efforts of Joe E. will preach Sunday evening at First Methodist church at 7:45. The business session of the fourth quarterly conference will be held immediately after the worship
