BURGAW — On Sunday evening, November 25, at eight forty-five, Miss Martha Vance Sparkman became the bride of Clarence Louis Shields. The Telephone Service Situation IS IMPROVING

We're On Our Way To Serve Those Waiting For Telephones

WITH the receipt of increasing amounts of telephone equipment from our manufacturers, we are making progress in catching up on held orders for service.

In many places where new additions to outside plant and central offices were not required we are now installing telephones without delay. But in places where additional outside lines and cables are needed or where central office switchboards must be manufactured and installed it will require more time before we can catch up with orders for telephones now on hand.

Building new lines, installing new cables overhead and underground and expanding central office facilities, which, in many instances, calls for new buildings or building additions, is a big undertaking. It's a job that requires a tremendous amount of labor and time to complete.

We are anxious for all who want service to get it. And you may be sure that we are doing all we can to hasten the day when no one will have to wait for telephone service.
