Simple Smartness

Daytime coat with new style notes.

By VERA WINSTON

THE DEFTLY done daytime coat is of fabric that can hold its own without any hint of fur trimming, is a big favorite this winter. Discreet touches of color lend excitement to this coat of black wool. It has a smart, double-looped collar with an inset of royal blue. The button holes repeat this touch of color at the front closing and also on the pockets. There are a few gathers on either side of the front closing. The skirt is straight in back.
