Jarrett Is Speaker At Rotary Meeting

ANDREWS — "State Finances, Receipts and Disbursements" was the subject of a talk which C. H. Jarrett made before the Andrews Rotary Club at its meeting on Thursday of last week at the Terrace Hotel. According to Mr. Jarrett the state spends around \$71,000,000 annually derived from direct taxation, while there is an additional \$16,000,000 of supplementary funds received from the federal government and various institutions. Then there is the Highway Fund, amounting to \$48,000,000 a year plus a supplement of around \$12,000,000 a year from Federal Aid. All told the State spends a grand total of \$119,000,000 yearly.

As to the source of all this revenue first in importance comes the state income tax, \$36,500,000 a year. The sales tax brings in \$20,000,000, the franchise tax \$10,000,000. This last tax is on foreign and domestic corporations, power companies, railroads, bus companies, insurance premiums,

and the like. Walter Whitaker, recently returned from overseas, was a guest of W. D. Whitaker. Boyd Robinson had as his guest Sam Webb, captain of the Elementary School basketball team. At the two previous meetings Mr. Robinson had as his guests George Pullium and Lane Creasman, luncheon checkers in the elementary school.

Luke Ellis discussed the matter of baseball for the town of Andrews. He explained that the required number of baseball suits had already been provided for by friends of baseball. He called for additional donations for which a considerable sum was pledged by the individual members of the Club.

Miss Vera Moore and Gladys Christy spent last week-end in Winston-Salem, with Miss Christy's sister, Mrs. Kenneth Peters.

Mrs. Boyd Robinson spent last week-end in Maiden and Catawba with relatives.

Commencement Will Consist Of One Evening

ANDREWS — Due to the absence of a high school graduating class as a result of the introduction of the twelfth grade the Andrews school commencement will confine itself to a one evening's program. This will occur on Thursday evening, May 16, at 8 o'clock when certificates of promotion to the high school will be awarded to some fifty-odd eighth grade students. The eighth grade will present a brief graduating program. This program will be preceded by the reenactment of several of the more popular May Day numbers which were recently presented here including the highly popular May Pole dance.

On the occasion of this program the various medals and awards of the year will be announced. Also the list of high school students who have made the A honor roll throughout the year will be read.

A \$5 cash prize will be made to the best student bus driver, while a prize of \$2.50 will be given to the driver adjudged to be second best.

The much prized Fanny Sue Hoblitzell gold medal will go to the pupil in the eighth grade who has made the highest scholastic average for the past four years. This person will automatically be class valedictorian.

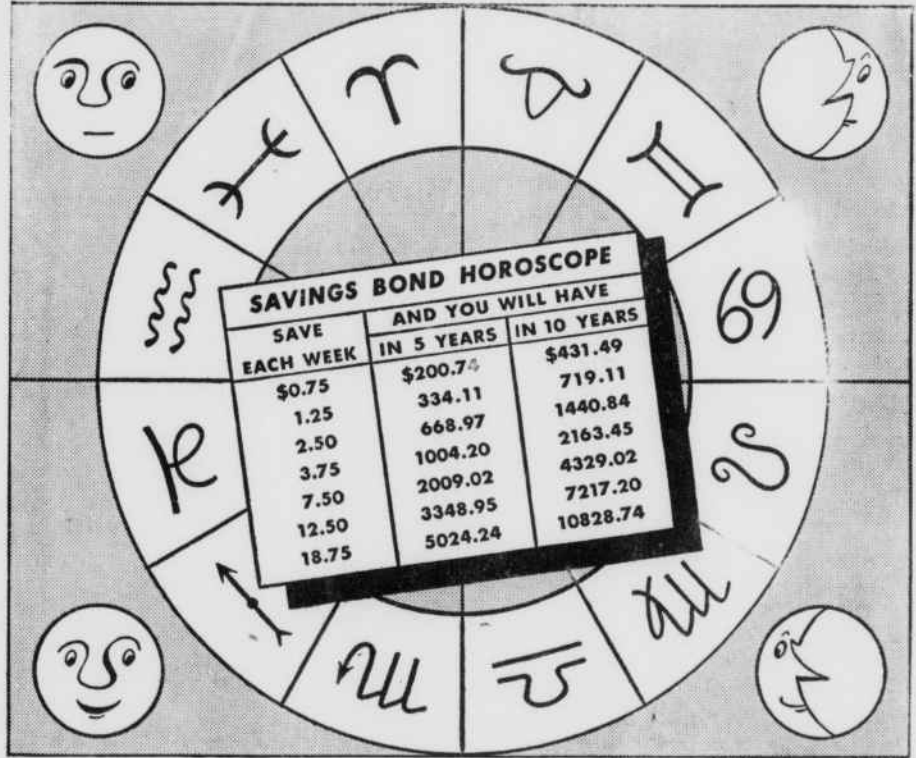

The May Day program which was given here a week ago was presented somewhat in lieu of the usual commencement activities.
