Rotarians Install Address System In Andrews School

ANDREWS — The Andrews Rotary club has recently justified the motto of the organization "service above self" by installing in the Andrews high school auditorium a public address system.

The equipment consists of an amplifier, four speaking units and two microphones. Two speakers are located on the forward walls of the auditorium and two are located under the balcony where to the

dismay of many would-be listeners throughout the years there has been a large area of "dead" space so far as listeners were concerned. The new equipment costing \$500 appears to be entirely adequate for the purpose it is designed to serve.

Rotarian Herman Brauer made the installation.

Mrs. Willa Geertsema, daughter of Mr. and Mrs. W. T. Latham of Buck Creek Ranch, was the guest of Mrs. R. A. Dewar a few days last week. Mrs. Geertsema has recently arrived from her home in Holland. This is her first visit to her home since World War II was begun.
