Standard Is Not Increasing Price

In response to questions J. Laurens Wright, Division Manager of the Standard Oil Company of New Jersey for North Carolina, said last week, "In the past few weeks a

number of other oil companies in this area have increased the price of their products, but Standard of New Jersey has not increased prices to either our dealers or consumers. This situation has resulted in some confusion on the part of the public regarding the 'hold the line' policy of my company. To clarify the situation I would like to quote from a statement recently made by Mr. R. N. Keppel, Vice-President in charge of Marketing, in which he said, 'My company has not increased prices in the areas where other oil companies have recently announced price increases

and we are continuing to maintain the "Hold the line" Policy announced by us on July 24."
