

### Apples And Pears Make Good Salads

By VERA STANTON  
Assistant State Agent

The built-in sweetness of fall pears and apples can be an aid to homemakers in stretching the sugar budget. On the average,

these fruits are about 10 percent sugar.

The simplest way to make the most of natural pear and apple sweetness is to eat them out of hand. But for variety, try them in salads dressed with cheese. Split a pear and fill the center with Roquefort cheese thinned with a little cream. Dress up apples with cottage or cream cheese mixed with chopped olives. For a note of color, add nuts, carrot strips, or green peppers to the salad—or use grapes or raisins to lend it even greater sweetness.

Sour cream dressing makes another tasty companion for pears and apples. Plain cooked dressing is also good with fruit salad. Make it of eggs, vinegar, milk, seasoning, and a little table fat, and cook it over simmering water.

For cooked dishes, apples and pears need a little extra sweetening. And corn syrup, honey or molasses may be used for this.

When baking pears or apples, coat the centers with dates or raisins. This adds sweetness, and only about 1 teaspoon sugar will be needed for each piece of fruit.

For a side dish that satisfies the sweet tooth at small cost in sugar, scald apples or pears with sweet potatoes. Dot each layer with fat, and sprinkle with just a little sugar or brush with honey.

For glazed pears or apples, quarter the fruit and bake with a little water until partially cooked. Then spread with brightly-colored jelly.

### Burley Queen To Be Selected

Plans for the selection of the Burley Tobacco Queen for Western North Carolina are now under way. It has been announced by Ewart N. Ball, editor of the Farmers Federation News, who is handling preliminary work on the project. Mr. Ball has asked that any person in Western North Carolina who plans to submit the name of a candidate, do so within the next ten days.

Candidates should be fifteen years of age or older, and should have raised or helped to raise their own tobacco crop, even though it be a small one. Candidate's names, along with information concerning their tobacco crop and other farm activities should be sent to Mr. Ball at the Farmers Federation News office, along with a snapshot of the candidate. The Farmers Federation News will then make photographs of each candidate, after which a committee chosen from members of the Asheville Junior Chamber of Commerce and of the Merchants' Association will select the winner, using the photographs and detailed information on the farm activities of the candidate.

As in the past, the candidate chosen to be the Tobacco Queen will be introduced at a banquet to be held in Asheville, and will be present at the opening of the Burley Tobacco market on December 1.

A new method of processing fresh cut green alfalfa promises to open industrial outlets for such alfalfa products as proteins and pigments or coloring materials, according to USDA.

When possible, it is well to see the sire and dam of the feeder calf before buying because milk fat on a young animal is often quite deceptive and unless he has good blood and individuality back of him he is apt to be disappointing as he gets older.
