MEDITATION

"As we recall the checkered experiences of the unquiet and fateful years that have recently passed and are passing, may we be upheld by the consciousness of God's sure presence with us and His gracious purpose concerning us, and amid all the mysteries that remain unsolved, may we be trustful and patient, courageous and unafraid, May He tinge with golden light the dark cloud of every serrow, and by the power of His hidden life may we be enabled bravely to put away all our forebodings and unfaith and fears

Electrifying The Areas

A dozen years ago the Governments of the World sent representatives to the United States to study he elecrification of the Hughes farm a few miles out of Washington. Cows were milked by electricity. A single strand of wire with an electrical current running through it was a firstclass fence against which cattle poked their noses only once and then kept their distance. The Government Rural Electrification Administration is now loaning about 6 million dollars a week to farmers throughout the country to enable them to install rural establishments and transmission of electrical systems. That is one way the farmers are marching on.

An Institution

Each year polio strikes with deadly effect. Each year this mysterious crippling disease attacks thousands of children-killing, maiming, depriving helpless little ones of their right to a normal childhood.

Last year was no exception.

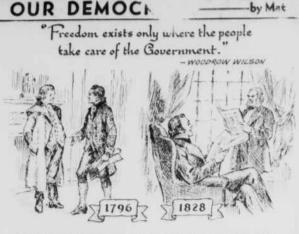

The scourge of polio struck again, claiming approximately 10,000 victims. This was the fifth consecutive year of unusually high incidence-five years in which roughly 80,000 persons have been infected with the disease. Thousands of these will require care and treatment for months-even years-to come.

What are we doing to stem this terrible tide? What Can we do?

The March Of Dimes will be held throughout the nation January 15-30. It is our opportunity to engage actively in the fight against infantile paralysis. This is the only annual fund-raising appeal of the National Foundation for Infantile Paralysis, which in 1948 marks a decade of service in fighting polio with the dimes and dollars raised through the March Of Dimes.

The National Foundation is your army. working in the field, fighting epidemics, bring- their services; also the other of- try raising, especially at hatchin ing aid to the stricken, supplying equipment; doctors, nurses, physical therapists and other bility to enable their fellow work- sunlight is highly necessary in the polio specialists. It assures the best available care and treatment for all, regardless of race or religion. It supports intensive research to find

THIS YEAR, AS IN EVERY FOURTH YEAR OF OUR HISTORY WE AMERICANS WILL BE CALLED UPON TO ELECT A PRESIDENT, THIS IS OUR PRIVILEGE AS A FREE PEOPLE -A GREAT AND SOLEMN RESPONSIBILITY.

AINT OURSELVES WITH THE ISSUES, TO CONSIDER CANDIDATES AND WHAT THEY STAND FOR, TO PREPARE OURSELVES FULLY, SO THAT WHEN WE MAKE OUR CHOICE IT WILL REPRESENT AN INFORMED DECISION IN THE INTEREST OF OUR DEMOCRACY.

LETTERS to the EDITOR

Asheville, N. C. January 9, 1948 The Cherokee Scout, Murphy, N. C Dear Sirs

I am mailing you this letter, rejuesting that you publish it, in rder that this expression may each each and every individual. company or department, that so and unreservedly gave their time, their sleep and rest.

THURSDAY, JANUARY 15, 1948.

'Twas the Day After NEW YEARS

'Twas the day after New Year's And down in our town, A merchant was fretting And wearing a frown.

For the New Year before him And open book lay, And what sales it held for him Not one soul could say.

For the customers came and The customers went, Maybe some of them looked And the other cnes spent.

Yet expenses kept climbing, With taxes and such. And to know how to meet them Took figuring much.

Fcr gone were the days When he "hoped" most the time. He had to anticipate Right down to the dime.

It took so much for lighting

But to sell that much more Took wisdom too wise, 'Til he remembered it PAID TO ADVERTISE!

So he figured his cost And he figured his rent And he added below it A proven percent.

"Now with this," said the man, "Twelve months a year I will use to tell pecple My store is still here."

So he started to smile, As his worries took flight And sighed with relief That the year was planned right!

Proven Percentages

These are the usual and correct

the cause of polio and eliminate it as a threat to our homes and our children.

The MARCH OF DIMES has become an American institution. It is our guarantee that everything possible will be done to repulse the savage onslaught of a mysterious killer.

Join in the fight. Give generously to the March Of Dimes. W. T. Teas of Andrews is our county chairman, and our quota is \$1,800.

The old complaint, "My feet are killing me!" literally applies to thousands of Americans each year, the National Safety Council reports. About one in every three traffic victims is a pedestrian.

We do not suppose there is a more potent factor in keeping up the necessity for asylums, penitentiaries, and jails, and in producing pauperism and immorality thruout the entire country, than liquor, and yet it is argued that it is to be placed on the same footing with the breatstuffs and other ordinary commodities of life.-Supreme Court of South Carolina.

"At a certain age some people's minds close up. They live on their intellectual fat." -Mm. Lyon Phelps.

And so much for rent, 'Til he'd figured it down To the very last cent.

Now he said to himself. With expression forlorn, "I have get to sell more Or my profits are gone!"

Newsprint is still very scarce, and we cannot enlarge the Scout to require paper above our allotment from our supply house, but it is our sincere desire to serve the merchants and other business firms in our trade area to their best advantage.

We will be glad to help you plan an effective schedule of advertising for your individual business.
