TO THE VOTERS

IT'S YOUR DUTY TO VOTE

AND NOW IS THE TIME

If the farmer is the man who feeds us all why not select and elect a farmer to lead us all? W. Kerr Scott is the first progressive farmer we have run for governor since Elias Carr, who took the office 1893, just 55 years ago.

KERR SCOTT has done more for the farmers and consumers than any one man has ever done in the history of North Carolina. He has saved you millions of dollars on pure food and feed, seed and the fertilizer you use. In 1931 at Salisbury, N. C. he fought for the farmers interest so they could have better rural homes and electrification. One of the greatest blessings the farmers have ever gotten he loaned your surplus money and got interest to reduce our taxes. He voted and supported all of us for better schools.

He quit his job with the state and is running for governor at his own expense to save the taxpayers money. He is fighting for everyone's interest harder than any one has ever done since George Washington, and your forefathers who fought, hungry, ragged, bare footed, and said, "give us liberty or give us death". Don't let them die in vain.

Don't give your sons and daughters' lives on the land or sea and give billions on billions of dollars in taxes to set Europe free, and then be so simple as to turn right around and vote for a man that can't run his own business, much less run your business for you. Any man that won't loan your surplus money to your own government — The safest soundest investment in the world to-day and get the interest on \$170,000,000 to help reduce our taxes is not fit for governor of North Carolina. Any man that seeks an office at the tax payers expense,

it's your duty to put him out of office. Any man that says he is for better schools and won't register and vote in his own precinct, do you believe he is for it.

Its not what we can make that does us the most good, It's what we can save that counts the most.

There are too many white collared office seekers and highway road hands that will vote for the first one that offers them an easy job. These men seldom if ever do anything good for themselves much less for their country. We need progressive men and women who can produce more and better things at less cost, and reduce our taxes, like Kerr Scott.

There are many men and women who are all of the time looking for a job. If they had any sense they could make a job of their own.

I am only a mountain boy with a fourth reader's education. When I need money I make my own JOB. I have sat on the bull pen in Murphy, N. C. and whittled on a soft pine board and made for a single day's work \$1,750.00 and often made \$1,000.00 a week. If you don't believe it ask Mr. L. E. Bayless, my old banker. He knows. He still lives in Murphy, N. C.

I am not wanting a job. I seek no political pull. I pay for advertisements to help my friends who have helped me in the past—little fellows who can not help themselves, mountain boys.

Think long and hard. Then vote for a man that has and can and will do the most for us all. W. K. Scott—The Farmer's Friend.

Yours Sincerely,

H. R. McINTOSH, Hayesville, N. C.
