Hudson Party Is Back From West Coast

ANDREWS—Supt. I. B. Hudson of the local schools has just returned from a trip to the West Coast. He was accompanied to San Francisco by his son, I. B. Jr., a Duke University ROTC midshipman, who reported at Treasure Island in San Francisco Bay June 24, and was assigned to the U. S. S. eratic PASADENA for a two month's cruise in Pacific waters.

Accompanying Mr. Hudson also was his son, Marks D., and his sister-in-law, Mrs. B. H. Stansel of Lumberton.

Among other places the party visited were the following: Vicksburg, Miss., where Mr. Hudson made his Rotary attendance, Carlsbad Caverns in New Mexico, painted desert, petrified forests, the Grand Canyon, Hoover Dam at Boulder City, Nevada, Sequoia and Kings Canyon National Forests, Los Angeles and San Francisco; Reno, Nevada, Salt Lake City, Denver and St. Louis.

Mr. Hudson states that he found the hottest weather in Texas where he experienced Texas' hottest day in the past six years. He found the coolest weather in the Colorado Rockies in passing through Berthoud Pass (elevation 11,315 ft.) just out of Denver where he passed through a snowstorm. Many of the peaks in this region are clothed with perpetual snow. As one makes a hard day's drive from Salt Lake to Denver he is rarely out of sight of snow on the lofty peaks, according to Mr. Hudson.

On summer days, food that looks cool gets a warm welcome, so I try to include something green on every menu. See how this cool color adds appetite appeal to a meal by serving the green-tinted tempters below!

PALE GREEN AND PRETTY
Speaking of green things, here's how to make an avocado ring that'll make guests green with envy: Soak 2 tbsps. plain gelatin in 1/4 cup cold water. Add 1 cup boiling water, and stir till gelatin is dissolved. Add 1 cup grapefruit juice, 1/2 cup A&P's ANN PAGE SALAD DRESSING, 2 cups chopped avocado pears, 3 tbsps. chopped pimento, 1 tsp. finely cut onion, 1/2 tsp. salt and 4 thin orange sections. Pour into qt. ring mold; chill till firm; and unmold on salad greens. Serves 6.

GRAPE GREEN AND GRAND
The idea for this salad came right from the grapevine. Whip 1/4 lb. cream cheese (thinned with 1 or 2 tbsps. milk if necessary), spread thickly on 4 A&P BRAND PEARS, and cover with halved seedless grapes. Serve on lettuce.

MINT GREEN & MARVELOUS
A cool green tint plus the fresh tang of mint makes ice cubes extra-nice cubes. So fill your refrigerator tray with water to which a few drops of green vegetable coloring have been added, and freeze a sprig of mint in each section. Then, to make iced tea that tastes as refreshing as it looks, simply brew your favorite blend of Flavor Tested Tea, and pour it over these minted ice cubes. Each of A&P's famous Flavor Tested blends—OUR OWN, NECTAR and MAYFAIR—makes flavor perfect iced tea with long lasting goodness that survives melting ice. Each costs less than a cool cent a glass.

LIME GREEN AND LUSCIOUS
In the summertime my favorite flavor is lime. My favorite way to enjoy it? In A&P's SPARKLE LIME GELATIN fixed like this: Pour 1 1/2 cups boiling water on 1 pkg. SPARKLE LIME GELATIN; stir till dissolved; add 1 cup crushed pineapple, 1 cup cottage cheese, 3 tbsps. lemon juice and 3 tbsps. mayonnaise; pour into 6 molds; chill till firm; and unmold.

SHEER TRAVEL MAGIC

Here you sit in blissful ease while the power plant itself meets and masters the thousand and one situations that come up in travel.

Gentle grades, steep hills, long straightaways, stop streets—once your lever's set, you simply step on the gas—and take them all in liquid-smooth luxury!

Does all this sound fabulous? It is.

So fabulous that folks are signing up in droves for the '48 fashion plate with this new-wonder drive.

So to take command of this traveler-touched-with-magic, come see us quickly and get your order in.

We'll take it in sequence whether or not you have a car to trade.

Here you let your left foot idle comfortably wherever you wish—there's no clutch pedal to push, ever.

Here your mind's free completely of remembering when to shift—no gears ever shift anywhere in the car.

Here, you glide over ground and grades in swift and utter smoothness as constant and unbroken as Niagara's flow.

For here you have the only passenger car in America where liquid replaces both the usual clutch and the low-second-high gear sequence of conventional transmissions.

THIS is the Buick America's car buyers are buzzing about. This is the one with travel magic flowing all through it.

This is the ROADMASTER with Dynaflo Drive*—where Main Street's dense traffic, the inviting open road and the long, stretching hills are bossed with equal ease by a toe-touch.

What's Different About DYNAFLOW DRIVE? To an efficient new pump (left above), Buick engineers have added a true turbine (right) and an ingenious new supercharging assembly (in hand) which produce a torque-boosting action in starting and accelerating. The result is the first device on any American passenger car which employs liquid to fill the function of both the clutch and the usual low, second and high gears. The clutch pedal is eliminated and a single control gives you manual selection of power ranges and direction.
