Dick Ketner And Randolph Shields' Purebred Cows Lead For August

Fanning Fields Gracious, belonging to Dick Ketner, led the Cherokee-Clay Dairy Herd Inspection association in milk production for August with an average of 58.7 lbs. of milk per day, states William Walker, tester. She is giving approximately 6.8 gallons of milk per day on twice-a-day milking.

Notla Helen's Henrietta, belonging to Randolph Shields, was second in milk production with a daily average of 53.3 lbs. or 6.2 gallons. Henrietta's name, along with several others from the Shields, Ketner and Smith herds, will appear in the "Honor Roll" published by State College. This honor roll is composed of cows on official test in North Carolina making over 50 lbs. of fat in one month.

Official testing differs from D. H. L. A. testing in that only purebreds are tested, and that the results of the test are compiled by the Dept. of Agriculture and turned over to the breed association to which the cow belongs. Cows making exceptional records are given publicity by both the Dept. of Agriculture and the Breed Association. A cow having a high official record is worth more money and will produce a calf worth more money than a cow equally as good with no record at all.

Two grade jerseys belonging to E. A. Wood led the association in fat production. The cows were: no. 80 and 149 with 76.2 and 68.1 pounds of fat per month.

The highest average for both milk and fat production goes to the Ketner herd which produced 964 lbs. of milk and 39.6 lbs. of fat per cow. "Tobe" Stalcup was second in this respect with 685 lbs. of milk and 36.1 lbs. of fat.

High cow in milk production for each herd was as follows: Ketner's Gracious 58.7 pounds milk daily, 1820 pounds monthly, 60.1 pounds fat monthly; Shields' Henrietta 53.3 pounds milk daily, 1652 pounds monthly, 64.4 pounds fat monthly; Wood's Lillian 49.3 pounds milk daily, 1528 pounds monthly, 67.2 pounds fat monthly; Townson's L. Hickey 41.4 pounds milk daily, 1283 monthly, 53.9 pounds fat monthly; Smith's L. Spot 38.0 pounds milk daily, 1178 pounds monthly, 49.5 pounds fat monthly; Folk School's Alice 33.6
