Wildcats Meet Hayesville Friday

ANDREWS—The Andrews Wildcats will be subjected to the "acid test" here next Friday afternoon at 2 o'clock when they meet the Hayesville Yellow Jackets of Coach Frank Long. The press agent says of these Clay county youths that in three games they are "undefeated, untied, and unscored upon". Andrews can say equally as much for its two games. So this game, Andrews-Hayesville, seems on paper to be a natural. The locals are making no claims to victory, but they may be expected to do all in their power to make a good home ground impression.

Wildcats Take Friday's Game From Robbinsville

ANDREWS—The kick-off of the Andrews vs Robbinsville football game started at 8 o'clock with Robbinsville receiving, on Friday night of last week at Robbinsville. The Wildcats played with their backs to the Blue Devils goal until late in the second quarter when Sam (Buzz Bomb) Webb intercepted a pass in the end zone and raced 50 yards to set up the "Wildcats" first marker. Then with an end sweep Webb went over for the first marker of the game. The try for the extra point failed. In the second half the two teams played on even terms until less than two minutes of playing time of the 4th quarter, then Parker passed to Webb, who went over standing up the extra point which was good, making a final score of 13-0 in favor of the Wildcats. Thompson to Jordan passing while Cook and Jordan doing the running for the "Blue Devils". "Connie" Holder caught the pass for the extra point.

HELP Prevent FIRES
Were the matches left within the children's reach . . . was the electrical equipment in the house faulty . . . or did a spark from a cigarette carelessly thrown in an ash tray start these ravaging flames of destruction. Two innocent children are the victims—Who is to blame? Too late now to answer this, but not too late to prevent it from happening again. WE'VE GOT TO PREVENT FIRES—AND YOU, YES YOU MUST HELP.

Monarch's "Deep-Heat" Cooker is DIFFERENT because it has

"SIDE HEAT"
IMAGINE yourself sitting INSIDE a circle of hot radiators! You'd soon feel pretty well "cooked." But if you sat DOWN on a radiator, the application of heat would be decidedly concentrated. The same principle applies to Monarch's exclusive side heat cooker. Monarch's side heat actually "wraps" the heat around the food - speeds cooking - tenderizes more thoroughly - and bakes rather than stews. No need to stir - foods do not stick to bottom!

HERE are three dishes you can prepare better and more economically with "Side-Heat," on MONARCH'S Electric Range Model F56P.
