YOU CAN'T PAVE A ROAD WITH SACKS OF MONEY!

Roads take time—they take men and machines—and lots of planning. Just having a lot of money on hand does not mean we can have roads with a snap of our fingers.

We HAVE plenty of road money on hand now and in sight for the future. Certified estimates show that from normal sources—that is, without a \$200,000,000.00 road bond issue — we will have \$291,580,000.00 for road construction and improvement in the next four years!

No, our roads are not held up for lack of money. More money will not get us roads any faster—BUT IT WILL GET US IN DEBT DEEPER THAN EVER BEFORE! And to what gain?

VOTE "NO"
