

# Take Your Family To Sunday School

By TOM C. CLARK  
Attorney General of the  
United States

It is a treat to take your family to Sunday school. Yes, a treat that will be the cause of rejoicing in your household. And, with this joy will come the moral strength and the soul-satisfying experience that only religious worship can give.

From the good Book we learn, "Train up a child in the way he should go; and when he is old he will not depart from it."

The spiritual guidance of Sunday school is more important than ever before in world history, for "righteousness exalteth a nation; but sin is a reproach to any people."

Peace throughout the world can only be founded on the firm rock of religion. Religion is the very heart of our being—our most precious asset. It is our strongest bulwark for peace. If it touches us in childhood, it will remain the rod and staff of our adult life.

By placing a high value upon

church and Sunday school attendance, regardless of creed, we deepen the faith of our children and make a lasting spiritual contribution to their growth.

We fathers and mothers of America must "take" not "send" our boys and girls to Sunday school for religion is likewise the strongest link in the chain in family unity. And united families, with firm spiritual faith, not only spell happy, wholesome childhood, but furnish one of the surest and best ways for the preservation of democracy.

Sunday school attendance makes for the well-balanced life.

So, fellow Americans, let's take the family to Sunday school, and give them a heavenly endowed fellowship in the greatest educational institution on earth.

## BIRTHS

Petrie Hospital

Mr. and Mrs. A. L. Henson of Young Harris, Ga., announce the birth of a daughter June 23.

Mr. and Mrs. Carl Roper of Topton announce the birth of a daughter June 26.

Mr. and Mrs. Gordon King of Letitia announce the birth of a son June 26.

Mr. and Mrs. Buddy Crisp, Route 2, Murphy, announce the birth of a son June 27.

Mr. and Mrs. Forrest Roberts, Route 2, Murphy, announce the birth of a son June 27.

**SOUND SIMPLICITY** at rock-bottom cost is the keynote of this new model home recently opened by the Montauk Beach Company, Inc., on Long Island, N. Y. Designed after the suggestions of Douglas Tuomey, building consultant for Good Housekeeping magazine, the architect kept expenses down by: (1) Elimination of basement; (2) Simple frame and roof; (3) Dry Wall construction; (4) Simplified windows and trim; (5) Use of closets for partitions. Although the house embodies the latest principles and advancements in moderate-priced design and construction, it's so simple to build that the toolwise amateur can do much of the work. The Montauk House lends itself to any seashore terrain and can be used for a summer or year round home. It is featured in the June issue of the magazine.

## Engineers Train Here

Students at The Engineer School, Fort Belvoir, Va., are using special instruments and drafting equipment while making maps from aerial photographs. This instruction is available to all members of the Engineer Corps and other soldiers who wish to receive advanced training in their work specialties.

## Cull Non-Layers Urges Farm Agent

Hens that don't pay their board have no place in a laying flock. County Agent A. Q. Ketner of the State College Extension Service told Cherokee County farmers this week.

He urged flock owners to cull all early moulters and broody hens as a means of insuring the most efficient egg production and reducing feed costs.

Mr. Ketner explained that the peak of the egg production season is now past, and that broody hens will consume as much feed as producing hens. Moreover, he added, early moulters are notoriously poor egg producers, since they take longer to moult than those that start late, and are non-producers for longer periods than late summer and early fall moulters.

Meanwhile, in Atlanta, Harry

Wise, poultry marketing specialist of the Production and Marketing Administration's Poultry Branch, gave strong backing to the local county agent's advice.

"It's just plain good business," Wise declared, "to stop keeping the hens that aren't keeping you. The markets are short on good fat hens, and prices are good. All two-year old hens should be culled and their places in the farm flocks given to young birds. It's an accepted fact that pullets are more profitable layers than hens. Now that hot weather is here, extra care should be taken to insure that eggs are gathered frequently, properly stored, and marketed under the best possible conditions. Better eggs will mean better prices."

Of the two-year-old hens, County Agent Ketner said "such birds are probably producing so few eggs now that the weather has turned hot that they are not paying their feed bill." He advised flock owners to look for birds

## VACATION'S END

If you don't want your vacation to end like this, remember this: Speed kills! One out of every three fatal motor vehicle accidents involves excessive speed. Take it easy and live!

## Mars Hill Faculty Studying Abroad

MARS HILL—Sixteen members of the Mars Hill College faculty are studying at European and American colleges and universities this summer.

Miss Evelyn Underwood, department of history, is attending the University of Edinburgh in Scotland, and Mrs. Richard D. Watson, department of English, is at Oxford. Nine are studying at the University of North Carolina. These are Mr. and Mrs. J. R. Hall and Miss Lucille Sawyer, department of music; James Roy Prince, department of modern languages; Miss Imogene Cowan, department of dramatic arts; Miss Dixie Hollowell, department of English; Raymond L. Wyatt, department of biology; Thomas C. Frazier, department of chemistry; and James H. Pickering, assistant librarian.

Harvey N. Lance, department of mathematics, is at the University of Georgia; Mrs. James Cox, department of business, at the Woman's College of the University of North Carolina; L. M. Outten, department of biology, at Boston University and at Cornell University; and Woodrow C. Ramsey, department of physical education, and Emmett S. Sams, department of mathematics, at Peabody College. In addition Walker H. Ford, department of chemistry, is at Mars Hill College working on his graduate thesis.

## Edgar McElfresh Dies In Texas

Word has been received here by Mrs. Mattie A. Taylor of the death of Edgar McElfresh, which occurred on May 31, in Mission, Texas. Mr. McElfresh and family lived here when he was with the TVA on construction of dams in this area. They moved from here to Sylva, went from there to Birmingham, Ala., and finally to Mission, Texas, where he passed away.

## BIRTHS

FRANKLIN—Mr. and Mrs. Ray Shields of Flats and formerly of Andrews announce the birth of a daughter, Judy Alice, at Angel Hospital on June 13.

## Postell
