Thank You, Mr. & Mrs. N. M. Davies OF CONGERS, NEW YORK

We're Sure that Millions of Farmers and Consumers Feel Just as You Do!

One of the wonderful things about Americans is their great sense of fair play. Ever since the anti-trust lawyers announced their intention of putting A&P out of business, tremendous numbers of people like Mr. and Mrs. N. M. Davies of Congers, New York, have deluged us with letters, wires and phone calls. These people are telling us, as Mr. and Mrs. N. M. Davies do in the following letter, why they like A&P and why they don't want to see this company destroyed.

DOCTOR DAVIES' FARM
DOCTOR DAVIES' LANE
CONGERS, NEW YORK
NILES M. DAVIES, OWNER
TEL. CONGERS 379
Sept. 20th, '49

Gentlemen:
The Great Atlantic and Pacific Tea Co.,
New York City, New York

We have been distressed by the possibility that the A. and P. stores, because of unfair accusations, may cease to exist. I wonder if you will see that our letter reaches the proper source, if there is one.

We are farmers, as you know, and not only sell our products, but buy necessary food from local A. and P. stores. We deliver farm produce, daily, to approximately eighteen stores in nearby villages. This includes two A. and P. markets, whose managers very wisely buy on-the-spot, thus saving deterioration due to excess handling, transportation and longer time from the farm to store. Our price to sixteen stores is the same as we get from the two A. and P. stores.

We wondered whether the low prices we see all the time in A. and P. stores might mean that sales people were underpaid. Evidently not, for we have noticed that the same employees stay on year after year, and we know high-school students in our town who have started at the bottom with A. and P. and risen to responsible positions.

Then what is this all about, if the consumers, the salespeople, those who manufacture your brands, the truckmen, the laborers and the farmers are ALL satisfied?

We believe the answer is simple. The A. and P. has developed an organization whose efficiency should be an example to all stores handling food. If this were so, independent grocers could well expect larger profits. The solution is not in destroying something that has taken years to build, but in encouraging all merchants to still further improve the efficiency of their operations.

Very sincerely,
Niles M. Davies
Eileen Davies

For 90 years this company has tried to build a sound business on the basis of giving consumers the good food for their money and giving farmers better markets for their products. It is heartening to know that the public approves of the job we have done... to know that our policy of fair, honest dealing has won us the friendship of millions of consumers and farmers. We will always be grateful to all our good friends who have offered us their help. We are proud to live in a country where such things can happen.
