## Contracts Are Let For School Building

### Teachers Assist In Recruiting Blood Donors

The Murphy School Board on Tuesday completed negotiations with J. M. Hughes and son who have the general contract for the erection of a building to house nine classrooms, a science laboratory and library.

The original drawing included an auditorium and lunch room but due to the rise in cost of building materials these two items were eliminated. Murphy Electrical Co. has contract for the wiring, and Presley and Osborne got the contract on heating and plumbing.

Construction will begin immediately.

The Rev. James R. Crook, Chairman of the Blood Program for the Cherokee County Chapter of the American Red Cross, reminded the teachers of the essential work the Blood Program is doing in sending 200 units of blood per day to our fighting forces in Korea. The slogan for the October 5 collection is "Blood for our Boys in Korea" and a goal of 100 pints has been set.

Recruiting in Murphy will be carried on by the Lions Club. The goal for this group is 100 pledged to give. It has been found that at least 150 must be pledged beforehand in order to get 100 units of blood.
