AN OPEN LETTER TO OUR CUSTOMERS THROUGHOUT OUR TRADING AREA:

March 5, 1951

We have been advised by Ford Motor Company that our supply of new Ford cars and trucks will be curtailed to approximately 70% of what we received last year.

There is always speculation on the part of the public that when new cars are scarce that dealers will sell them where-ever they can realize the most profit and with the least effort, even though that may mean taking most of the cars out of the dealer's trading area.

We are taking this means of telling our customers that we expect to sell all our new Ford cars and trucks to the people in our trading area, at the legitimate (and or) ceiling prices, trade for your used car at the legitimate (and or) ceiling prices.

We invite you to come in and let us know what your needs are and you will be given every courtesy and consideration.

We will make our new car and truck supply go as far toward taking care of our local customers' needs as possible.

Give us an opportunity to prove to you that there is a "Ford in your Future".
