Spring Frills For Packaged Ice Cream

Ice cream is a favorite refreshment no matter what the season, and now that it comes pre-packaged in the sturdy block-shaped cartons which you buy at your grocery store, it is the easiest dessert in the world to serve. Besides, ice cream is a nutritious food and an economical one—especially when you buy the bargain half-gallon which serves 16. For a gay party arrangement, serve the ice cream in paper serving dishes with dolly ruffs pasted on the edges. The centerpiece is a gaily festooned candle. The ribbons lead to little nosegays of spring flowers arranged in nut cups.

It takes less cotton

to buy residence telephone service today than it did 10 years ago . . .

If you paid your telephone bill with raw cotton, residence telephone service would cost you less today than it did in 1940. In spite of the increase in telephone rates, the average charge for a month's residence telephone service in North Carolina would now amount to only 10 pounds of cotton as compared to 20 3/4 pounds in 1940.

In other words the price you pay for telephone service has gone up far less than the price of cotton. Furthermore it has gone up far less than wages and family income and far less than most commodities and services you buy every day.

Meanwhile, the amount of telephone service available at your local service rate has increased immensely. Today throughout most of North Carolina you can call and be called from more than 2 1/2 times as many local telephones as you could ten years ago.

Yes, telephone service is today a bigger bargain and a smaller item in the family budget than it was ten years ago.
