

# Bloodmobile Will Come Here Oct. 18

The Red Cross Bloodmobile will make its next visit to Murphy on October 18.

J. L. Savage, chairman of the program, announces that Murphy Lions will recruit donors for this visit, and everyone interested in being donors should contact one of the three captains: Hobart McKeever, Frank Forsyth, or Bob White.

The quota for this trip is 150 pints.

Robert Lovett, Secretary of Defense, at a September 25 Press Conference in the Pentagon referred to the mistaken idea that there are two Blood Donor programs. Mr. Lovett said: "The Red Cross has been designated by the Department of Defense as the official procurement agency for the collection of blood for the armed forces. Because there is a tremendous urgency to collect three million pints of blood for use by the armed forces, the Military came into the picture to help the Red Cross and to press upon the public the extreme urgency of the situation. The Red Cross itself is receiving no compensation for acting as Blood Procurement agency for the Armed Forces, although it is true that the Department of Defense is paying part of the expense of collecting and processing blood needed for our troops. The Red Cross and the Military are working together as a team in an effort to get the blood necessary to build up our supply of plasma which has been dangerously depleted. The men in uniform will also give blood in this drive, but the bulk of it must, as always, come from the civilian population."

Approximately 100 students were taken to this special clinic, where recommendations were made as to their disposition.

Dr. Powell stated that in order to reduce the number of students with impaired hearing it would be advisable to conduct these tests and clinics yearly and do a great deal of follow-up on the cases that require special attention.

The total fire damage in Cherokee County forest areas protected by the N. C. Division of Forestry during the 1950-51 fiscal period was only \$680, according to the report of Ranger E. S. Burnett. A total of 235,919 acres of forest land, including 153,814 acres of private land, are within this area, and during the year 34 fires occurred. A total of 363 acres burned indicates that the average fire was held within less than eleven acres.

To catch the first sign of smoke and to accurately locate and promptly attack the fire with efficient crews is the work of rangers the province of the towers from which they survey the area. During this past year, the report states, the operation of Wesser Bald Tower has been taken over by the County Forest Rangers.
