

To Make Parking Survey In Murphy

The Murphy Town Board passed a motion Tuesday evening to request the state to send a representative to make a parking survey in Murphy and make recommendation to the board.

The board considered plans for street paving and decided to call a meeting sometime this month after needs have been found. All interested persons should see the mayor, board member or be present at the meeting, says Town Clerk, John Bayless.

All past due taxes have been turned over to Hobart McKeever for collection. The city attorney has been directed to obtain a licensed engineer to re-survey the city limits, enabling the city to bring property into the city limits not on the tax list.

The board decided to install a red light at the intersection of Hill Street and Valley River Avenue.

Limited parking signs have been ordered to be placed in front of and behind the post office.

The beautiful chalk painting illustrating his message which Mr. Bassett does each evening is given away to the person who has brought the most new people to the service.

During his sermon the church is in semi-darkness, and masterpieces of Christ and His sacrifice flashed on the screen help portray the message.

Preaching the crucified Christ, calling upon church members to get right with God and sinners to repent, Mr. Bassett has made such emphatic statements as the following:

"If you break man's laws, you are a criminal; if you break God's laws, you are a worse criminal, for God is greater than man.

"I charge you with the crimson crime of letting thousands go from your city into eternity lost through your criminal neglect. So many churches are carrying on petty programs we could carry on just as well in God were dead.

Hiwassee Village Offered For Lease

Hiwassee Village, now being operated by the State, is offered for lease and development, as a recreation area, TVA announces. The village, now named Hiwassee Lake State Park, was built in 1936 to house workers at TVA's Hiwassee Dam. The property, including approximately 250 acres of woodland, may be leased for a period up to 30 years.

The area is located on a wide bend on scenic Hiwassee Lake. It is adjacent to Hiwassee Dam and is near the upper reaches of Apalachia Lake below the dam. Facilities in the village include 61 housing units, several garages, a centrally located building suitable for remodeling as a combined office, restaurant or commissary, two small buildings usable as warehouses or shops, hard surface roads, and water and sewage lines. Most of these facilities can be converted to vacation rental use.

Adjacent to the village are approximately 40 acres (also having some paved roads, water and sewage lines) suitable for immediate development of resort facilities. Electricity is supplied by a rural electric cooperative which owns

and maintains the distribution system.

Offering of the Hiwassee Village area for lease marks the seventh time that TVA construction villages have been put to permanent use. The towns of Fontana, Watts Bar and Pickwick Dams are now under lease to private operators as resort areas, and the Kentucky and Wheeler Dam villages are being operated as state parks by Kentucky and Alabama respectively. The town of Norris was sold at public auction in 1948 and is now a privately owned residential community.

The Hiwassee Village site is located in a popular tourist area and is easily accessible by paved roads from major travel routes. It is within a few hours' drive of the Great Smoky Mountains National Park and various well-known vacation spots in western North Carolina and east Tennessee.

TVA will accept proposals to lease and develop this property until August 15. Detailed information may be obtained from A. D. Rieger, Manager of Properties, Tennessee Valley Authority, Chattanooga, Tenn.
