A good example of the growing industrialization and economic progress of the South is this new DuPont synthetic fiber plant at Camden, South Carolina.

For PROGRESS... call DIXIE!

MUSIC to Southern ears! The hum of busy factories, crowded stores and streets. The ring of saw and hammer. And more than 26 million telephone calls a day!

There's another cheerful sound—58,000 Southern Bell men and women busy providing you and your neighbors with the most and the best telephone service in Dixie's history. Service that's vital to the Nation's defense. Service that keeps you in touch with others 24 hours a day... speeding your business... enriching your home life.

TELEPHONE growth is a striking example of progress in today's amazing South. During the 10 years from 1940 to 1950, the South's growth in telephones was more than twelve times its growth in population. In the first 6 months of 1952 alone, we added 149,250 new telephones. Southern Bell Telephone and Telegraph Company.

SOUTHERN PROGRESS AND TELEPHONE PROGRESS GO HAND IN HAND
