how to take care of your tires?
1. Be sure that they are properly inflated. Under inflation causes sidewall breakdown; over-inflation stretches the tire fabric, causing blow outs.
2. Check frequently for cuts, blisters, distortions, nails or glass in the tires.
3. Make sure your wheels are in line. Uneven and rapid wear is the result of wheels not in line. Take care of your tires and they'll repay you with longer life—yours and theirs.
