Ritch Injured When Train Hits Cow Mon.

Seventy-five year old Van Ritch received hip injuries Monday when George Hembree a Southern Railway Train hit his both Ritch and the cow toppled Dies At Home cow, the cow fell on Ritch and dow a 10 foot bank, Murphy Police Chief Neil Sneed reported.

The accident occured between 7 and 7:30 a. m. when Ritch was lead ing the cow along beside the railway track in Factory Town between the first and second crossings, according to the police chief.

Sneed said Ritch apparently did not hear the train approaching. The cow also suffered hip injuries, not serious, it was reported.

Mash Destroyed At Topton Still

destroyed, but no arrests were made last week in a four-man party raid on a Topton whiskey still, Cherokee County Sheriff M. G. Crawford reported.

The still, located just over on the Macon County side of the Macon-Cherokee County line, was busted by the Cherokee sheriff, along with Macon Sheriff Harry Thomas, Deputy Luke Carver and Patrolman L. H. Baker.

Crawford said the party destroyed two barrels of mash, and that no one was around the still when the raid was made.

\$150,000 Bond Would Build Lightning Hits Main New Plant; Fluorine Added Murphy Water Pump

Council Monday night opened the faucets, faced some hard facts and discovered:

1.-Murphy's water system can supply an addition of only 500 new families.

2.-No new industry of any large size can be invited to Murphy because of an inadequate water

3.-The present system has some 500 customers, bringing the town a gross monthly payment approximately \$2,000, and;

4.-A new filter plant on Hiwassee River large enough to put Murphy back in the industry running will cost around \$150,000

The Council added to those facts a new demand by several Murphy citizens that fluorine be added to the water system.

WATERSHED LIMITED

The town's present watershed has reached its limit, Council said, and will force action within the a picnic table site be turned over to contact Clerk Johnson.

ing can be done to bring any type stalling a drinking fountain at the of industry to Murphy that needs same site. any large amount of water, it was

A new filter plant on Hiwassee River could be built after a 20 ters. A report is to be handed year bond is voted, one council- Council monthly on the progress man said.

The bond would mean a 25 cent water bills.

The new filter plant would include flouridation equipment to answer growing demands in Murphy. The system, used effectively in other towns and cities, helps prepent cavities in children's teeth.
