TO THE VOTERS OF CHEROKEE COUNTY

I am a candidate for County Commissioner of Cherokee County and of course you would like to know just what I stand for, so I am taking this method to inform you what I think the Board of County Commissioners should do.

1. Our Taxes are too high and I think they should be reduced to the limit of efficient government.
- 2nd. I am opposed to paying unjust County Claims to certain individuals for political purposes as has been done in the past.
- 3rd. I am opposed to raising the salaries of County officials every time the Legislature meets. If we are to have a healthy economy in this County we will have to put every dollar where it will do the most good for all the tax payers.

I sincerely solicit your vote and influence in the coming Primary of May 29th. and if I am nominated and elected I will assure you that I will do everything that I can to make you an honest Commissioner.

RESPECTFULLY SUBMITTED,
JAMES CLAYTON

New driver comfort! New driving ease!

New Chevrolet Trucks... do more work per day... more work per dollar!

You save time in traffic. New truck Hydra-Matic transmission gets you off to smooth, time-saving starts without shifting or clutching. Imagine how easy this makes driving in traffic and on delivery routes! It's optional at extra cost on 1/2-, 3/4- and 1-ton models.

You save time on the highway. New high-compression power gets you up to highway speeds from a standing start in less time, and saves you time on hills, too. You make trips faster—and the new Comfortmaster cab makes them seem shorter. It's got everything!

You save extra trips, too. That's because of the extra load space you get in the new Advance-Design bodies. New pickup bodies are deeper... new stake and platform bodies are wider and longer. Also, they're set lower to the ground for easier loading.

You save on operating costs. High-compression power saves you money! The "Thriftmaster 235" engine, the "Loadmaster 235," and the "Jobmaster 261" (optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

You save with lower upkeep. New Chevrolet trucks are built strong... last longer and save you money on maintenance. There are heavier axle shafts in two-ton models... bigger clutches in light- and heavy-duty models... stronger frames in all models.

And your savings start the day you buy. In fact, they start with the low price you pay—and they never stop. Chevrolet, you know, is America's lowest-priced line of trucks. And it's also the truck that has a traditionally high trade-in value.

Come in and see how much you're ahead with America's number one truck. You'll like the way we're talking business!
