## STATEMENTS

"Better Schools are essential to the development of Cherokee County. And we can not have better schools without better buildings." L. B. NICHOLS, Chairman, Andrews School Administrative Unit.

"We must have schools for the children of the County and I can not see any other way at this time to provide buildings for them". NOAH W. HEMBREE, Chairman, County Administrative Unit.

"The money we're getting from the State Bond is insufficient for County and Murphy minimum requirements. Cherokee County has never voted a county-wide bond issue for schools." H. A. MATTOX, Chairman, Murphy Administrative Unit.
