FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not scour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

BOB POOLE, popular radio star of WBIG says, "My wife has always used light Karo for cooking... and on the table—it's dark Karo for me, the best-tasting eating syrup of 'em all"

Yes, indeed...biscuits go like hot cakes when you pour on plenty of delicious dark Karo... there's nothing like it for good eating. Satisfyin' flavor. So rich it stands right up on top of biscuits (keeps 'em light and fluffy). Keep Karo on your table morning, noon and night...it tops anything!
