GARDEN TIME

By ROBERT SCHMIDT I have just received a copy of the N. C. State Fair catalog which reminds me that many community and county fairs will be held during the next six weeks. Every gardener should take an interest in the local fair and also the State fair. If you have anything worth exhibiting, you should take pride in showing it. How many times have you stood in front of a prize winning flower, vegetable or fruit at a fair and said, either to those with you or to yourself, "I've got a better one than that home in the garden right now." You may be absolutely right. Only, having it winning a blue ribbon on the show table and having it growing in the garden are two entirely different things. The point is to get it from the garden to the show table and still have it good enough to win over the other entries.

Before you enter an exhibit, read over carefully in the instructions in the catalog. Be sure to enter the exhibit in the proper class. Have it properly labeled. If the class calls for a plate of 12 specimens be sure that you have twelve—no more and no less.

In vegetable exhibits, specimens should be of best marketable size except where the catalog calls for the "largest", as in the case of pumpkin. Where the class calls for a plate, tray, peck or bushel, the individual specimens should be as nearly alike in size, shape and color as possible, and they should be free from blemishes and have the true characteristics of that particular variety. Potatoes need not be washed unless it will improve their appearance. However, if not washed they should be brushed with a soft brush or cloth. Flower exhibits call for perfection. Good stems, healthy foliage.

CARD OF THANKS

We wish to express our appreciation for the beautiful floral arrangements, the many kindnesses and sympathy shown us during the recent illness and death of our husband, father, son and brother, Leonard Palmer.
