Who says dream cars never come true?

Dynamite from Detroit

Coming! America's first production dream car... it will influence the shape of cars for years to come.

The old Detroit rule was to introduce new features gradually, to make little changes each year. Sometimes a new grille, an engine improvement, or new colors and trim.

We broke that rule. In fact, we broke all the rules. This is dynamite!

For you are not the only one who has dreamed of a totally modern car, a car that has everything you find at automobile shows, in illustrations, and in custom-built experimental cars.

Detroit has had that dream, too. And that's why the 1957 Mercury is the car that has honestly excited the most car-jaded, the most sophisticated of Detroit's automotive experts.

When you see the new 1957 Mercury, you'll see America's first full-production dream car—a car that

will influence the shape of cars for years to come.

You'll see a dream car you can own and drive—a car that has far more than startling years-ahead beauty.

THE BIG M for '57 boasts dream-car features never before found outside a designer's dreambook: a Keyboard Control that makes ordinary push-button driving old-fashioned; an exclusive Floating Ride with a revolutionary new cushioning action you have to feel to believe. There are Mercury "firsts" everywhere you look. A Power-Booster Engine Fan in the Montclair series that saves horsepower other cars waste. And many more Mercury exclusives.

You'll see THE BIG M—the new Mercury for 1957—soon. You'll see it. You'll drive it. The first dream car that can be yours. The dynamite is on its way from Detroit to your dealer's—now!

STRAIGHT OUT OF TOMORROW

 Executive Vice President

Murphy, North Carolina
 November 5, 1956

Dear Folks:

Five years ago Berkshire Knitting Mills built a completely new, modern full-fashioned hosiery mill in Andrews. Their payroll has contributed much to the economy, not only to Andrews, but to this entire section as well.

Berkshire's parent plant in Reading, Pennsylvania is celebrating their 50th anniversary and so it is entirely fitting that they have a 5th and 50th anniversary "Open House" party at their mill in Andrews. We congratulate them on their fine new, modern plant; their worldwide reputation for quality hosiery; their splendid cooperation with their employees, and their efforts to make Western North Carolina a finer, better place to live.

I join with Berkshire's many friends in Murphy in sending congratulations and best wishes for their continued progress and success.

Cordially yours,

W. Frank Forsyth
 Executive Vice President
