

Jimmy Kinsey

(Continued from page one)

from Dare County are in Jimmy's collection.

Jimmy is a son of Mr. and Mrs. Leon Kinsey of Hilton Street. He is an eighth-grader.

Jimmy plans to keep his collection going and already has his heart set on a stone cutter and polisher for Christmas.

The youth said: "I wouldn't take anything for my arrowheads." He is especially proud of his spinners that were "made by left-handed Indians".

Jimmy explained that a right-handed Indian makes arrowheads flats while a left-handed Indian will put a curve toward the head. This will cause the arrow to spin when it is shot, he said.

Asked if he ever trades stones with other collectors, Jimmy said very seldom, except with Wanda West, 15, of Murphy. Wanda is a daughter of Mr. and Mrs. Howard West and her collection is about the same as Jimmy's. Both started their collections about the same time.

Jimmy's musical career started about six years ago. He now plays the piano, organ and accordion. He has played in several talent shows and will render special organ music at the First Baptist Church Sunday, Sept. 1.

(Continued from page one)

might as well realize that Communism has to be stopped one way or another if we want to survive as a nation.

"Communism does not know any moral values. Communism has not one shred of decency in it. Communism only stays in business to satisfy the hunger, glory, vanity and sadism of a handful of people who control the machine guns and the taxes. Communism is, as a gospel, vile and it is foul and it is dishonest.

"But Communism, by its false promises, greatly appeals to the hungry, disease-ridden and impoverished one-hundred million people all over the world—people who have nothing to look forward to except another day of oppression, another day of sickness and another day of hunger.

"We are in a position—without any question—to bring the ten times one-hundred million people, who are just on the razor's edge, into our camp, instead of letting them fall into the communist trap. We are in a position to gradually receive, with open arms, those who, unfortunately, have already fallen into the Communist trap if we are willing to use the Bible as our guide book, if we are willing to help those unfortunate people to help themselves. We cannot help them forever with billions of dollars in gifts, for—as we all know—charity always does breed resentment.

"If we want to keep our way of life; if we want to continue to enjoy peace and prosperity and if—above all—we are willing to make moral progress, then we, the people, have a choice between inaction or apathy on the one hand and a deep interest in our neighbors and humanity and the Bible, on the other hand.

"We, the people, have the choice today to make moral progress as has never been done before, since today we are in a position to translate our spiritual advancements into technical realization.

"We can today fight for peace with the same effectiveness as we fight a war. In a war, moral values do not count. You have to kill or be killed. In fighting for peace, it is only a question of moral values. Are we willing to spend the time, the love, the energy, the knowledge and the know-how that it will take to make the world over in our image?"

Are we willing to spend the time, the love, the energy, the knowledge and the know-how that it will take to make the world over in our image?"
