LETTERS TO THE EDITOR

Mr. Gene Parker Editor and Publisher THE CHEROKEE SCOUT Murphy, North Carolina

Dear Mr. Parker: The support your paper is giving to your local Red Cross chapter's fund campaign to reach an announced goal of \$2,500 is generous and effective. We sincerely hope the chapter's efforts are successful and that the chapter can again be in position to provide the community with the valuable facilities of a Blood Program.

Undoubtedly the folks in Cherokee County have realized the value of this wonderful facility, but it would appear that too few of them realize that sufficiently to be more generous in their contributions. Actually the economic side of a volunteer Blood Program is something that should appeal to all of the people. The blood that is provided through the Red Cross at no charge to the recipient other than charges made by the hospital or doctor for performing the trans-

fusion would cost the patient or the patient's family from \$25 to \$50 if it had to be obtained from a commercial source or donors provided in the ratio of two donors for every pint used.

It is entirely probable that Blood Program facilities in Cherokee County would provide residents of the county with Red Cross blood which if purchased through commercial sources would cost the recipients of the blood more than the announced goal of \$2,500.

Eventually we hope your chapter will have many more good supporters like THE CHEROKEE SCOUT. Thanks again for your support of this worthy cause.

Sincerely,
Clifford B. Fligg

They are Nancy Ann Sales of Murphy and Carolyn Ruth West of Marble.

Rollman's Views ON OUR STREET

By SALLY DAVIDSON

Edito's Note: This is the fifty-first in a series of articles by Heinz Rollman, industrialist, Waynesville, N. C.

In previous columns, I have written about the program and plan to have parents take an active hand in avoiding the next world war.

I have gone to great lengths trying to point out in big outlines a possibility of an exchange plan, of a friendship plan, between the American parents and Russian parents, all of whom despise and hate war.

Now, in this same connection, it would be appropriate, I believe, to see whether there is somewhere another possibility of getting closer together with the Russian people as distinct from the Russian government, for we certainly cannot trust the Russian government, while the Russian people are probably nice, friendly, honest hard-working people, just as we are.

Don't forget that in Russia, not as many as three out of 100 people are members of the communist party, and many of these, obviously, are forced to be members in order to hold the juicy jobs which the communist party can give to them. Well, if Russia is now imitating my plan and my idea of sending a "peace army" of millions of Russians, specialists and technicians, to the far corners of the world, and since just now our

Teen age boy, "all these petticoats and things girls wear now, make 'em go "Swoosh" when they sit down".

Bus filled with happy, laughing boys and girls from Capitol Hill Hi, Oklahoma City, on our street recently.

Overheard, "Oh yes, there's plenty in town, I got mine at "The Fedders Farmation".

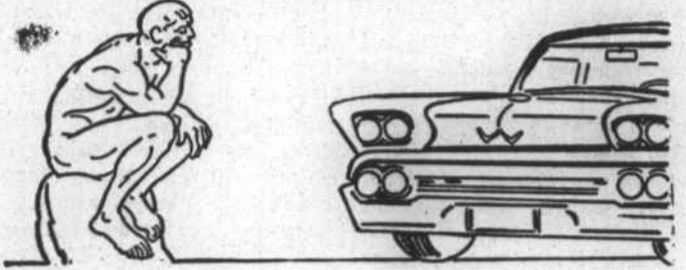

Mr. and Mrs. Claude L. Love of Raleigh spent Sunday night with Mr. and Mrs. W. P. Odom. Miss Addie Mae Cooke spent last week in Murphy.

Administration realizes this fact and pointed out that this know-how and economic penetration made by Russia is even far more threatening than their missile program. then let's not just sit by and buy sack cloths and ashes and go around in tears.

Let's do something and let's announce to the world that our Congress has also decided to create a peace army consisting of millions of people, and that we are willing to do it together with Russia.

The Thinker... are you one?

A lot of drivers give very little thought to the care of their cars. Most any gasoline will do, or indifferent service. Not so the thinking man!

He knows his car is a big investment. He wants the best gasoline and motor oil and the best service he can get to prolong his car's life, improve its performance, maintain its value.

We believe that most of the men and women who come to Phillips 66 Stations are the thinking type... people who appreciate expert service performed by trained men.

Stop at Phillips 66 stations. See what we mean by "Hospitality on the Highway."
