Keep Cool And Live Longer Air Conditioning is more than comfort and luxury. Air Conditioning is your protector as well. Air Conditioning protects a-gainst heat-induced heart strain. Air Condtioning prevents heat prostration, heat cramps. Air Conditioning provides

for heat-worn hearts Air Conditioning restores vital-

Air Conditioning filters lung irritants from air you breathe. Ar Conditioning filters out hay fever pollen, allergy proteins.

Aside from fevers, the body's temperature is carefully regulated by a system of glands that act as a thermostat for the heart,

which acts as a power plant for personal your condition-"air er". When the thermom e ter rises, the bore dy's thermosta. causes the Si heart to pump

at the skin surface in greater vol-deaths

ume so that body heat can be dis-sipated at a faster rate. Ordinary Blue Ridge Electric activity in so degrees weather guest, Eddie Miller of New York puts as great a strain on the heart city at a party Tuesday evenas hard physical labor in normal ing. July 22. in the game room weather. In New York, a study of the effects of high heat and humidity proved that death is often joyed by the 35 guests. caused by severe circulatory strain and shock.

One of the ways the body dissi pates heat is through the process of evaporation But this uses up the body's supply of sodium chloride. In hot, humid weather, the loss of sodium chloride frequently causes "heat cramps" and heat prostration. That is why laws in many states requires employers to supply salt tablets in factories when the temperature rises to 90 degrees. The body's "air conditione" can not cope with excessive heat. Air Conditioning can help pevent heat prostration.

The body has remarkable recuperative powers. The effects of heat-induced heart strain can be overcome by a few hours of sound sleep in a cool room during which heart action can slow down. In the man killing Boulder Dam Construction Project under the cruel, boiling sun of the Colorado Desert, 15 deaths from heat were recorded the first summer. After workers dormitories were air Jifaster in order to torce blood to conditioned there were no more dust partcles, all year 'round. It is the dust that never comes to

"We've found the easy way to pay for Faol Oil"

"Instead of making big seasonal payments for fuel oil, we've spread the expense out over the year. We're using the Phillips 66 Even Payment Plan."

The Phillips 66 Even Payment Plan is a favorite with many budget-minded homemakers. They like this new way of paying for fuel oil because it has all these ad-

> It means smaller monthly payments spread out over a year's time.

 It eases the strain on a bulging winter budget when so many other expenses occur. • The plan is easy and practical to use . . . it

involves no carrying charge or service fee.
