BIBLE THOUGHT FOR THE WEEK

Psalm 61:1-2 "Hear my cry, O God. Attend unto my prayer from the end of the earth will I cry unto thee. When my heart is overwhelmed, lead me to the rock that is higher than I."

CENTRAL TRUTH

There is no use telling people not to worry when they have just cause for worry. I am not of that school of philosophy that proclaims: Smile and the world smiles with you; weep and you weep alone. God has never promised to remove all of our troubles or problems, but if we will serve him they will be lighter and much easier to bear.

Book Fair Planned at Oxendine

Oxendine School in the Wakulla Area will sponsor a student book fair May 1 until May 5. The book fair committee invites all students, parents, and visitors to attend the fair. The fair will encourage students interest in reading and in building home libraries, and will also contribute to a worthwhile project. All profits will be used for purchase of new books for students.

The Remedial Reading Program is sponsoring this event with Emery Hunt serving as book fair chairman. This committee includes Ricky Locklear, Letha Pierce, Gertie M. Locklear.

The book fair display will include attractive new books from many publishers in all popular price ranges: wonderful books to read or to give as gifts. All reading interests will be represented, including classics, fiction, biographies, adventure stories, science, nature, crafts, mystery and reference books. The committee is working with Educational Reading Services, a professional book fair company, to furnish an individual selection of books for the fair.

The bitter orange was the only kind known in Europe until after 1500 A.D. It was used as a seasoning, not as a fruit.

ENERGY SAVING IDEAS Helpful Tips

You can save energy cooling your house by using the same things that help you save when heating your house: storm windows. Kept on windows not needed for ventilation, they help keep cool air in, warm air out.

The Department of Energy has estimated that proper attic insulation can save up to 30 percent of heating and cooling bills, since heat tends to rise and escape through an insufficiently insulated roof. The same insulation reduces the need for cooling by keeping out the sun's heat.

You can find a number of energy-wise suggestions in a new booklet "Energy and Your Home." Edited by famed science writer Isaac Asimov, it's available from York Heating and Air Conditioning, Department 14, P. O. Box 1592, York, Pa. 17405.
