Gas/Oil Treatments
1.17
 15 oz. oil, 12 oz. gas treatment.

Red springs, Rowland

Carver Principal Gets Leave Of Absence

For the first time during a regular school session, the Scotland County Board of Education has approved an extended leave of absence for a school principal.

Ray Brayboy, principal at Carver Middle School, asked for and received a six month hiatus which will extend from Nov. 10, 1980 to May 10, 1981, to complete requirements for a doctoral degree from Pennsylvania State University.

Brayboy received a fellowship from the U.S. Office of Indian Education to assist in his efforts towards obtaining his doctoral degree.

Superintendent Johnny E. Presson said the timing of Brayboy's request was

simply a matter of course availability.

"Not only that, but if he had begun his studies sometime during the summer, he would have missed the opening of school," Presson said Thursday.

"This way, Ray (Brayboy) was present during opening activities and will be finished with his studies in time to return to his duties before school adjourns for the summer."

According to Presson, an acting principal will be named to fill the temporary vacancy created by Brayboy's absence.

"We will fill this position with a properly certified individual from within the county school system."

RAY BRAYBOY

Presson said.

"And since Mr. Brayboy will not be receiving any of his regular salary while he is away, we will use those funds to compensate the individual filling in."

Brayboy has been principal at Carver Middle School for

the last three years, and has been steadily completing course requirements that will culminate during his leave of absence when he completes his doctoral thesis.

The Scotland County Board of Education supports an ongoing program to provide incentive for individuals to seek advanced educational degrees.

Land near mass transit stations is escalating in value, even where the system is a long way from completion.

IN LOVING MEMORY

TONYA NICOLE OXENDINE
 Born: Sept. 20, 1976; died August 6, 1980.

I miss her so much, my heart is sore,
 And as time goes by, I miss her more.
 Her loving smile, and beautiful face, No one can ever fill her vacant place.
 She was so bright, and so smart,
 And she loved Jesus with all her heart.
 She always said she wanted to live with Jesus,
 And now He's took her for some sad reason.
 She said she was going to a new home,
 Now she's in the land of Heaven to roam.
 Tonya's gone, but she'll never be forgotten,
 As long as life and memory last the pain'll still be rotten.
 The pain grows with each passing day,
 What I feel inside is almost to much to say.
 The pain in my heart,
 Is now worse than at the start.
 All the pain that's inside,
 Is becoming to much to hide.
 I feel like I'm carrying such a load,
 That one day my heart will surely explode.
 I look for her in the night,
 But there never seems to be light.
 I look for her in the day,
 Then I have to tell myself, "She's away."
 What really happened, I can't explain,
 But I feel partly to blame.

I must make myself believe it was her time to go,
 But how I'll do it, I just don't know.
 I can still picture her under water in that river,
 And it hurts so bad, it makes my body shiver.
 I wonder if she felt any pain,
 Or if it was as gentle as the rain.
 I wonder if she tried to reach out for me,
 And I was too blind to see.
 And if she tried to call out to me, and I was too deaf to hear.
 And if her little body filled with fear,
 I wonder how she felt when for the last time she went down,
 And what's it like to be so young and drown.
 Why did God take her away,
 No one can say.
 Everyone always said, "Love her while you can."
 Because God can take her with a wave of His hand.
 I never thought of her as God's child, always mine,
 But now He's took her from me, and left me behind.
 When I think of her little blue lips,
 My heart swells so big, it feels like it rips.
 I know she's in Heaven, a little Angel looking so sweet,
 But without one of my daughters, my life is so incomplete.
 Because the memory of my Tonya is there in everything I do,
 And it hurts even worse, because there'll never be another Tu Tu.

The Fireplace Alternative
 The open hearth fireplace for all traditional charm is actually one of the most efficient methods of heating available today. In fact, the average fireplace is less than 10% efficient in producing heat.

Defiance introduces the "Fireplace Alternative" - The Master's Choice.

The Master's Choice was developed by the Defiance Company, manufacturer of the highly rated industry leading Volcano woodburning furnace. Many years of experience and expertise have gone into the production of the Master's Choice and the result is a well engineered stove of superior construction, built to provide years of efficient, economical heating.

The Master's Choice woodstove is available in two prior stove models, and as a fireplace insert to make your fireplace an economical home heating system.

FANCY THAT!

Children apparently have always had toys. The remains of dolls and toy animals have been found in the burial mounds of ancient Persia and in early Greek Ruins.

But only recently have specialists come to understand that toys play an important role above and beyond pure fun. Experts say toys actually serve as unprinted "textbooks" in helping children learn how to deal with life.

To encourage such creative play, Fisher-Price - now in its 50th year - suggests parents look for toys that challenge the child, stimulate his imagination, and offer opportunities for social interaction with parents and other children.

ALASKA **HAWAII**
 Alaska and Hawaii expanded U.S. land area by one-fifth.

In Tahiti the temperature rarely rises above 94°F., even in the summer months of February and March.

PUH SUGAR
 Cats cannot taste sweetness.
