

Retirement Banquet For Teachers

The Robeson County Association of Educators held its Annual Retirement Banquet Friday, May 22, 1981, at the O.P. Owens Building.

The group of approximately two hundred people were welcomed by president Lee Helen Thompson. Invocation was given by president-elect Rose Marie Lowry, followed by the guests serving themselves to a buffet dinner.

After the dinner, entertainment was provided by Mrs. Thomas Seibles, IV, of Fairmont.

Mr. David Green, chairman of the Robeson County Board of Education, and Mr. Purnell Swett, Superintendent of Ro-

beson County Schools, gave greetings and presented each honoree with a framed certificate from the Robeson County Board of Education.

The Executive Officers of the Robeson County Association of Educators presented plaques to each honoree.

Guest speaker for the occasion was Dr. Joy J. Johnson, pastor of First Baptist Church in Fairmont. Dr. Johnson urged and encouraged the retirees to maintain their involvement and input in the many aspects of life.

Other people recognized were school representatives, who represented the schools at the local NCAE meetings

and other functions.

Mr. Harold Lamb installed the new officers for the 1981-82 year. The officers will be Rose Marie Lowry-president, Vera D. Malcolm-President-elect, Lee Helen Thompson-Past President, Earlene Locklear-Recording Secretary, Thayle Sandersou-Corresponding Secretary, and Mabel Zeigler-Treasurer.

The new officers will begin their tenure on July 1, 1981.

Remarks about the future direction of the Association were made by incoming president, Rose Marie Lowry.

BEAT THE PEAK.

10 A.M. TO 10 P.M. IS THE PEAK TO BEAT DURING THIS TIME OF YEAR

During each day there are times when the most people want to use the most electricity.

Heating, cooling, cooking, laundry. Everybody wants more electricity all at once.

It's called the Peak Load. And our future electric

rates are affected by how high these peaks get.

But we can beat the peak, if we'd all use less electricity during peak periods. And more at other times.

It's not easy changing when we use electricity. But if we do, the peak wouldn't go up quite so fast. **CP&L** And neither would the cost of electricity.

EXECUTIVE OFFICERS, LEFT TO RIGHT: Earlene Locklear-member at large, Harold Lamb-Member at large, Mabel Zeigler-Treasurer, Vera D. Malcolm-Secretary, Rose Marie Lowry-President Elect, Lee Helen Thompson-President, Henry Smith-Past President. NOT PICTURED: Thayle Sandersou-Corresponding Secretary.

STILL ACTIVE....

Mr. J. Paul Lewis, age 83, of West 16th Street in Lumberton, is pictured working in his shop where he paints signs (without the use of glasses). This is remarkable at his age. And his work is

fantastic. He also designs checker boards. He builds tables and inlays the checker boards in them.

Mr. and Mrs. Lewis have 4 children: 3 girls and 1 boy. (W. P. Revels photo).
