school paper on old wives' about vision?

Answer: One of the most widely believed myths about vision is that 20/20 is perfect. It only means you can see things far away normally.

Another is that your eyes wear out from too much use. Most of us, however, need to see our doctor of optometry every year for a thorough examination to keep our eyes healthy and in top working

'Strike at the Wind!' is

worthy of our support Artistic expression, cultural development and the arts have always had trouble in Ol' Robeson. It has something to do with our silly, racial

notions that tend to separate the ethnic groups to the detriment of all of us. Racism cannot flourish in a place where the arts can shout, "I

Jellybeans and a wise decision

Jelly beans and sweet-tooth aside, President Reagan has done pharmacy and the American public a great service by suspending the controversial Patient Package Insert proposal (PPI).

It is our sincere belief that pharmacists can do a more efficient job informing patients about drugs and their effects. Government programs tend to be top-heavy and inefficient. In fact, when forces of government intervention overwhelm the decision areas of the market place (as we believe this would have done), then pharmacy would become a pawn to the power-grab of Being the best aunidies because the second se
