Much has been said about the proper place for women in modern society. We want to look at what the Lord really expects of us women. Now the subject for this lesson is God's plan for wives.

Progress is wonderful, supposedly, but one wonders when television commercials depict nut addicts to some of today's video games. The commercials claim Dad, or children "possessed" by these games, are finding great satisfaction.

One wonders. We Americans were once a people of the outdoors. That can't continue, as in the past, of course, but the picture of a whole generation of Americans somewhat overboard on electronic games is not quite right.

One has the uneasy sensation we are on the way to a society of homebound eggheads and escapists to fantasy land. Not to mention the nervous-Nellie personalities these rapid-paced games seem to create. We'll take Huckleberry Finn, or Buckwheat Cake!

RE-ELECT

For **"ROBESON COUNTY SHERIFF**

SHERIFF OF ROBESON COUNTY

MY FELLOW CITIZENS

When you go to the polls on Tuesday, June 29, you will be deciding the safety of the general public of our county. Do we want a county where brutal murderers roam at large to do their dirty deeds again? Where thieves are at liberty to break and enter at will into the homes of law-abiding citizens? Where our children are easy prey to the drug traffickers who do their dirty business largely unmolested even in our neighborhoods?

These are serious matters worthy of your consideration as you decide who will be your SHERIFF for the next four years. As a candidate it is my duty to point out the demonstrated inability of the incumbent to effectively protect our people from the criminal element. Could this inability be the result of known members of this criminal element actively supporting the candidacy of the incumbent? This may be verified by an examination of any community.

Although the incumbent has portrayed his department as the best in the State, official crime statistics indicate otherwise and our citizens know otherwise. We have a department with a million dollar budget and one hundred employees without anyone having management training. Experience in law enforcement is not enough: We need a sheriff with management skills to insure that each deputy effectively performs the duties entrusted to him and that no tax dollar is wasted.

I appeal to the good people of our county to cast their vote against the criminal element that has long had too much influence on our county law enforcement. Vote for a change that brings honest, effective law enforcement.
