### INDIAN HERITAGE WEEK: SEPTEMBER 19-25

The week of September 19-25, 1982 has been set aside as Indian Heritage Week in North Carolina to recognize the monumental contributions of Native Americans to the rich history of the state. It has become an annual observance since its inception in March, 1980, when Governor Jim Hunt declared the fourth week in September to be Indian Heritage Week in North Carolina.

In addition, the Governor's Interstate Council will be visiting Old Main on the PSU campus, Tuesday, September 21, at 2:30 p.m. The Governor's Interstate Council is comprised of representatives from each state that has an Indian Commission or Agency that oversees the affairs of Indian people. The Council will also be observing its 33rd Annual Conference in Fayetteville, N.C., Sept. 20-24.

### ENROLL IN THE LUMBEE TRIBE TODAY

An age-old adage says it best: "United we stand, divided we fall."  
The author who coined these words of wisdom, no doubt, had great insight--not to mention extraordinary foresight.

He very well could have been talking about the problems facing Native Americans today as Reaganomics continues to slash federal dollars from programs designed to help indigenous people close the socio-economic and educational gaps between them and their white neighbors.

Indeed, the time is now at hand for Native Americans everywhere to present a united front to the rest of the world. That's why it's imperative you have your name added to the Lumbee Tribal Roll. Call 521-8602.

In addition to presenting a show of unity, many schools in North Carolina include among the criteria for eligibility to receive American Indian Student Legislation Grants the stipulation that you must be a member of a tribe (a certified member). So, you see, there are many benefits to becoming a member of the Lumbee Tribe, certified by LRDA's Lumbee Enrollment Project.

Recently Lumbee Indians in Michigan won a monumental court battle that may eventually open the door for similar legislation to be passed in this state. As a result of the favorable court ruling, Lumbee Indians in Michigan are entitled to a tuition-free education. One of the criteria

requirements was that the recipient must be a member of the Lumbee Tribe, as certified by LRDA's Lumbee Enrollment Project. Call 521-8602.

What do you have to lose? There are no obligations, financial or otherwise. You simply receive a membership card that is professionally printed and laminated to fit in your wallet. The card says: "The bearer of this card is a duly enrolled member of the Lumbee Tribe and is entitled to all privileges as a member of that tribe."

If you still have second doubts, consider this: as federal monies become harder and harder for minorities to extricate from the hands of bureaucrats, it is safe to assume federally-recognized tribes will receive top priority. That's one of the reasons why LRDA has the Lumbee Status Clarification Project whose primary concern is gaining federal recognition for Lumbee Indians. One of the requirements to becoming federally recognized is that there must be a Lumbee Tribal Roll that is maintained and updated.

So, if you won't do it for yourself, do it for your children--our leaders of tomorrow. It is good and proper to glance back occasionally and remember from whence we came. But it is equally important to keep our eyes on the future.

Stop by the Lumbee Enrollment Project office today. Or call 521-8602 for further information.

You owe it to yourself. You owe it to your children.

## Warriors Tie 20-20 With

## Red Springs In Friday's Game

by Steve Tyner  
Seventeen penalties, three interceptions and a tenacious Red Springs team resulted in a 20-20 tie for the Pembroke Senior High Warriors last Friday in a non-conference football game.

The Warriors found themselves thwarted at almost every move after establishing a quick 14-0 lead in the first quarter. They amassed a total of 186 yards in penalties while gaining only 250 total yards offense.

Starting off impressively, the Warriors forced and recovered three fumbles and intercepted a pass in Red Springs' first four offensive possessions. They managed to turn two of the turnovers into scores. The first came at 6:22 of the quarter on a 15 yard run by Lee McRae. The second was a 14 yard run by Greg Smith. Eric Locklear kicked the extra point after each score. The next score did not come until 4:21 of the third quarter when Smith scored again on a 3 yard run. By that time the momentum had swung to the Red Devils and the parade of penalty flags had begun.

Red Springs struck first on a heart-breaker for Warrior fans. After stopping the Devils on three plays mid-way the second quarter, the Warriors blocked the ensuing punt. A penalty on the play by a Pembroke player gave Red Springs a first down. Dropping back to pass, Hardin

Brown, R.S. quarterback, threw the ball long to Charles McRae. James Bird, the Pembroke defender, leaped high to intercept only to tip the ball into McRae's hands who scampered untouched into the end zone. The extra point attempt was unsuccessful.

Red Springs next score came with only 50 seconds left in the half on an eight yard run by Brown following his interception of a halfback option pass by Pembroke's Lee McRae. Brown also added the two point conversion to tie the game.

The second half was nothing short of a nightmare for the Warriors with the only bright spot coming from Smith's touchdown. Drive after drive was stopped because of a penalty. On three different occasions, the Warriors were inside the Red Springs' 20 yard line but could not manage to score. After the last one stalled with about six minutes to go, Red Springs put together an 80 yard drive that ended with Brown's one yard plunge for a touchdown with only 35 seconds left in the game. Timmy Miller's extra point kick attempt was wide leaving the score tied.

The Warriors will be idle for two weeks before meeting Prospect October 1. The game scheduled for this week against Gumberry has been cancelled. Next week will be an open date on the schedule.

## FOOD PSYCHOLOGY

### Teaching Neatness

It's easier than you might think to get your children to be a help around the house. A good first step might be to assign a certain time of a day, or a few times a week for neatness.

In addition to a time for neatness, children need the proper tools for neatness. A lightweight carpet sweeper is much easier than a vacuum cleaner for a youngster to handle. With today's top technology, carpet sweepers can pick up everything from paper clips to pet hair. One new model, the Double Action from Bissell, features double brushes and over 15,000 bristles for fast pick-ups.

After clean-up time is over, the carpet sweeper is extra-easy to hang flatly and neatly away in the closet. Many parents reward their children with a special treat for neatness, such as an allowance, or special privileges around the house. It could be a great way to train your children to be the better homemaker of tomorrow.
